INTRODUCTION

Welcome to the Wright State University-Miami Valley College of Nursing and Health (CONH). The faculty are pleased that you elected to pursue your graduate degree with us.

The purpose of this student handbook is to guide you through your studies. This handbook outlines the program requirements in effect for the current year. In addition, it summarizes and clarifies University and CONH policies and guidelines related to your graduate study. You are responsible for being thoroughly familiar with the contents of this handbook.

Please refer to School of Graduate Studies’ website (Policies and Procedures Manual) for more information on their policies and procedures.

MISSION STATEMENT

The Wright State University-Miami Valley College of Nursing and Health provides excellence in innovative educational programs as the foundation for lifelong learning; serves our community locally, regionally, nationally, and internationally; performs scholarship that enriches and guides the profession of nursing; and empowers faculty, staff, students, and alumni to reach their full potential.

Adopted 2/87; Reaffirmed 9/96; Revised 9/07; Approved: Fac Org 10/23/2013

VISION STATEMENT

The Wright State University-Miami Valley College of Nursing and Health will be a leader in the transformation of the educational enterprise in Ohio and beyond through collaborative partnerships, civic engagement, and service, supported by scholarship to advance and empower nursing in an inclusive, respectful environment.

Adopted by FO: 3/12; Approved: Fac Org 10/23/2013

PHILOSOPHY

The College of Nursing and Health supports Wright State University's mission of teaching, research, and service. The faculty believe in the acquisition of knowledge, the exploration for new knowledge, the advancement of lifelong learning, and the search for basic truth. The faculty share the commitment of the University to respond to issues affecting the diversity of the global community.

The Faculty Believe:

The human community consists of individuals, families, groups, organizations, and communities. An individual is a dynamic being whose body, mind, and spirit develop over the life span. Individuals have inherent worth, dignity and the potential to be discerning, caring, creative, and rational beings within the context of their developmental stage and life situation. Individuals make choices which create the self and provide opportunity for change.

Individuals are members of families who may serve as cohesive, dynamic support systems providing nurturance and protection as well as transmitting cultural values. Individuals form groups, organizations, and communities to share responsibilities and meet human needs. Vulnerable and underserved groups require shared responsibility by all humanity for communication, understanding, and peaceful coexistence.

Individuals, families, groups, organizations, and communities affect and are affected by their interactions with the environment. The environment is the context of human existence; the quality affects the human potential for health. The human community has a responsibility to protect, conserve, and promote the health of the environment.
Health and illness are dynamic coexisting processes which influence balance, harmony, and vitality within each individual. Both processes depend on environmentally affected and genetic capabilities, initiative, knowledge, individual choice, and value judgments. Well-being is a perception held by the individual of his or her ability to function in society and attain satisfying relationships with self and others as well as their ability to seek or find meaning in existence.

The discipline of nursing integrates knowledge derived from empirical, aesthetic, ethical, and personal sources to provide safe care that is scientifically and culturally sound. Professional nursing is grounded in liberal arts education and requires knowledge in nursing, the other sciences, arts, the humanities, and technology. Liberally educated nurses bring a unique blend of knowledge, judgment, skills, and caring to the healthcare team that delivers treatment and services in complex, evolving healthcare systems. Nursing’s social mandate is to promote health and wellness, prevent disease and disability, and care for those who are ill or dying in the settings in which they are found. Professional nurses function autonomously, as well as collaboratively with clients and interprofessionally within a multifaceted health care system providing basic organizational and systems leadership.

Professional nurses use critical thinking and methods of scientific inquiry to generate new knowledge, analyze data, recognize patterns, establish priorities, and promote evidence-based practice. Professional nurses address issues important to the profession of nursing, question dominant assumptions, and solve complex problems related to individuals, groups, and population-based health care. The professional nurse epitomizes an appropriate set of values and ethical framework for practice by consistently demonstrating core values of altruism, excellence, caring, ethics, respect, communication, and accountability. As advocates for quality outcomes and safety for all individuals, professional nurses must be knowledgeable and active in health care policy, finance, and regulatory environments.

Nursing education is an interactive teaching-learning process within a collegial and interdisciplinary environment. Education facilitates critical thinking and inquiry, ethical insight, caring, communication, creativity, an appreciation of the past, sensitivity to societal diversity, and professional competence. Teaching includes assessing, advising, guiding, facilitating, modeling, sharing knowledge, and evaluating. Learning is a lifelong self-directed process of change that includes synthesizing knowledge, skills and values necessary for expanding the dimensions of the individual, which increasingly will include graduate study for the professional nurse.

1990 Faculty write award winning book on Nursing Theory
2000

- **2000** Graduate program for School Nursing added
- **2003** Students study Global Health in the United Kingdom
- **2004** BEACON program launched

2005

- **2005** Accreditation by the Commission on Collegiate Nursing Education received.
- **2005** Nursing Institute of West Central Ohio established

2010

- **2010** WSU launches the nation’s first master’s program with flight and disaster specialization
- **2007** BSN program offered in southeast Ohio through Adena Health System
- **2007** Online Doctor of Nursing Practice degree launched

2001

- **2001** Cameos of Caring, honoring bedside nurses, established

2005 Nursing Institute of West Central Ohio established
2012: Multi-year initiative to transform nursing educational models at WSU

2013: PCMH approach to promote primary care partnerships between patients, family, and health care professionals

2011 thru today

2013: Psychiatric and Mental Health Nurse Practitioner concentration added to master’s program

2014: In collaboration with UC, WSU offers Neonatal Nurse Practitioner program

2012: Adult CNS Flight & Disaster Nursing specialty program graduated first class

2013: Wright State Nursing Institute launches Nurse Aid training program

2013: Students travel to Tanzania for service-learning Global Health
The Master of Science Degree Program in Nursing is designed to prepare graduates capable of expert practice in the following areas of advanced nursing practice: Adult-Gerontology Acute Care Nurse Practitioner, Adult-Gerontology Clinical Nurse Specialist, and Pediatric Nurse Practitioner Acute Care, Pediatric Nurse Practitioner Primary Care, Pediatric Clinical Nurse Specialist, Family Nurse Practitioner, Neonatal Nurse Practitioner, Psychiatric Mental Health Nurse Practitioner and School Nurse, along with Administration of Nursing and Health Care Systems and Nursing Education. The College of Nursing and Health also offers a school nurse post-baccalaureate certificate and post-master’s certificates in select concentrations and/or second master’s in all other concentrations.

A major emphasis of the program is on health promotion and disease prevention, which is intended to stimulate the master's prepared nurse to build on client’s strengths rather than to focus on limitations. As a result, graduates are equipped with the knowledge, skills and attitudes to assist clients to develop their own competence to complete tasks and reach goals needed for personal accountability for their health. Nurses prepared in advanced nursing roles promote quality health care through service to individuals, families, groups, organizations and communities. Quality nursing care is increasingly dependent on the ability of the nurse to generate, analyze, and apply research within the practice setting. Critical analysis of methods of care compared to expenditures, direct the provision of nursing care in the future. Careful preparation in these areas will enable nurses with advanced degrees to develop the entrepreneurial spirit necessary to adjust to a rapidly changing health care environment.

The Graduate Program Model is in direct alignment with the Essentials of Master’s Nursing Education (2011) and depicts a framework designed to educate nurses with the broad knowledge and expertise necessary to provide human-based caring in master’s level advanced nursing practice in the 21st century. The following narrative more fully describes the curriculum model.

The eight articulating themes of the curriculum model include: Nursing Science and Evidence Based Practice, Organizational and Systems Leadership, Quality Improvement and Safety, Translating and Integrating Scholarship into Practice, Informatics and Health Care Technologies, Health Policy and Advocacy, Interprofessional Collaboration for Improving Patient and Population Health Outcomes and Clinical Prevention and Population Health for Improving Health.

The articulating themes of the curriculum model are introduced early in the program through a series of core courses and are expanded through the specialty concentrations of the program. It is essential that students refine their analytic skills, expand their perspectives, and logically defend their actions in an articulate manner in relationship to all aspects of health care. Development of these abilities is requisite of the evolution of professional leadership within and external to the profession. Specific emphasis throughout the core courses is placed on developing appreciation of human diversity and social issues that impact human-centered nursing care. Furthermore, emphasis on health care financing, societal values/ethics, and the importance of political activism as a method of advocacy for appropriate and cost effective health care of the public is integral to the courses.

Content on nursing science is introduced in the core courses focusing on theory, research and evidence-based practice for advanced nursing practice. A course in health policy hones critical thinking skills for analyzing the impact of external variables on health care accessibility and practices. An informatics course ensures familiarity with applications of information technology in nursing and use of various computer application packages. An advanced practice roles and leadership course is designed to provide a base of knowledge related to advanced nursing practice across specialty concentrations. Concepts of health and well-being are related to the advanced nursing practice role. Content within this core
provides a base of knowledge in formulating therapeutic nursing interventions at an advanced practice level.

Knowledge gained in the foundations of advanced nursing practice is progressively integrated as students enter their areas of specialization which are focused on application to direct or indirect practice. Students use this expanded knowledge base as they gain expertise in their selected areas of advanced nursing practice. Emphasis on acquisition of advanced skills and knowledge of the specialty is provided in selected course work pertinent to the major. Collaborative practice within an interprofessional health care environment is an important focus. Examination of the relevancy of various theoretical models and research applications for practice are required. Emphasis on health promotion and disease prevention strategies are emphasized including within the context of illness.

Expert knowledge requires a synthesis of all prior learning and culminates in the full integration of knowledge as it applies to the advanced nursing practice role within the chosen concentration. Advanced leadership skills evolve as students employ new knowledge and gain the ability to provide therapeutic nursing interventions indicative of thoughtful, analytic, problem-solving/decision-making abilities for advanced nursing practice. They are prepared to improve practice, demonstrate leadership, assume an advanced nursing role, engage in scientific inquiry, or enroll in doctoral study.

Reference

Approved: September 24, 2012; Revised: September 24, 2014 AD; Revised & Approved: Grad Curr 10/15/2014
STUDENT OUTCOMES FOR THE MASTER’S GRADUATE

The graduate will be prepared to:

1. Examine scientific findings from nursing, biopsychosocial fields, genetics, public health, quality improvement, and organizational sciences for the continual improvement of nursing care across diverse settings.

2. Demonstrate leadership skills necessary for ethical and critical decision making, effective working relationships, and a systems-perspective to promote high quality and safe patient care.

3. Apply quality principles within an organization and articulate the methods, tools, performance measures, and standards related to quality.

4. Apply evidence-based outcomes within the practice setting, resolving practice problems, working as a change agent, and disseminating results.

5. Use communication strategies and patient-care technologies to integrate, coordinate, deliver and enhance care.

6. Examine the policy development process and advocacy strategies necessary to intervene at the system level to influence health and health care.

7. Use communication strategies necessary for interprofessional collaboration and consultation to manage and coordinate care.

8. Integrate broad, organizational, client-centered, and culturally appropriate concepts in the planning, delivery, management, and evaluation of evidence-based clinical prevention and population care and services to individuals, families, and aggregates/identified populations.

9. Demonstrate advanced level of understanding of nursing and relevant sciences as well as the ability to integrate this knowledge into practice including both direct and indirect care components that influence healthcare outcomes for individuals, populations, or systems.

Revised Grad Curr: 11/20/13
Wright State University-Miami Valley  
College of Nursing and Health  
**Code of Conduct for Students**

**Preamble**

The Code of Conduct is based on national standards and an understanding that society has great trust in the nursing profession to provide safe and competent care. Learning to be a nurse means learning what is expected of a professional. Through academic study and clinical experience, the student nurse will learn to care for patients with a multitude of health conditions across the life span. Nursing students learn to work within a team and to collaborate with the many health care professionals in the practice arena. This Code of Conduct is a statement of professional behavior founded on professional values, ideals and obligations in nursing, and an agreement to uphold quality and safety standards in a patient-centered care model.

As students, we commit to follow the obligations and ideals for Nursing Students in the College of Nursing and Health at Wright State University:

**Academic Integrity**

- Be responsible for my own work in class, online, and in clinical settings
- Uphold an environment of accountability both personally and professionally
- Report any witnessed evidence of academic dishonesty to the faculty
- Follow all CONH policies and procedures as outlined in the student handbook
- Use social media responsibly as outlined in the CONH social media policy

**Personal Honor**

- Be respectful in all relationships with faculty, staff, peers, and patients
- Maintain patient confidentiality and respect patient autonomy
- Perpetuate an environment of honesty and trust in all situations
- Recognize the inherent dignity and worth of every person—including yourself
- Strive to reach the highest levels of ethical, moral, spiritual, and cultural understanding in each interaction with the public
- Commit to integrating and embracing the ethical principles for the conduct of nursing
- Refrain from hazing, sexual misconduct, use of alcohol or drugs with patient contact, violence in the academic setting, bullying, destruction of school property or the property of others, or being in possession of dangerous weapons on university property or any clinical agency as a student from WSU

**Clinical Professionalism**

- Be personally accountable for actions and omissions in Practice and refrain from any action that may cause unnecessary harm
- Aim to create a therapeutic and professional relationship with patients
- Promote and encourage lifelong learning and professional development
- Practice within the scope of practice as dictated by national standards and the Nurse Practice Act in the state of Ohio
- Provide compassionate care
- Prepare thoroughly for patient care each day so that the care I may provide is safe and of the highest quality
- Use opportunity to improve faculty and clinical staff understanding of my needs

*Approved as written by students F14: UG Curr 9/10/14; Slight revision by Grad Curr 10/15/14; Affirmed UG Curr 11/12/14*
Chapter 4723: NURSES  

**4723.01 Nurse definitions.**

As used in this chapter:

(A) "Registered nurse" means an individual who holds a current, valid license issued under this chapter that authorizes the practice of nursing as a registered nurse.

(B) "Practice of nursing as a registered nurse" means providing to individuals and groups nursing care requiring specialized knowledge, judgment, and skill derived from the principles of biological, physical, behavioral, social, and nursing sciences. Such nursing care includes:

1. Identifying patterns of human responses to actual or potential health problems amenable to a nursing regimen;
2. Executing a nursing regimen through the selection, performance, management, and evaluation of nursing actions;
3. Assessing health status for the purpose of providing nursing care;
4. Providing health counseling and health teaching;
5. Administering medications, treatments, and executing regimens authorized by an individual who is authorized to practice in this state and is acting within the course of the individual's professional practice;
6. Teaching, administering, supervising, delegating, and evaluating nursing practice.

(C) "Nursing regimen" may include preventative, restorative, and health-promotion activities.

(D) "Assessing health status" means the collection of data through nursing assessment techniques, which may include interviews, observation, and physical evaluations for the purpose of providing nursing care.

Amended by 129th General Assembly File No.194, HB 303, §1, eff. 3/20/2013.
Amended by 128th General Assembly File No.14, SB 89, §1, eff. 3/29/2010.
Effective Date: 09-26-2003; 04-07-2005; 03-30-2007

**4723.03 Unlicensed practice.**

(A) No person shall engage in the practice of nursing as a registered nurse, represent the person as being a registered nurse, or use the title "registered nurse," the initials "R.N.," or any other title implying that the person is a registered nurse, for a fee, salary, or other consideration, or as a volunteer, without holding a current, valid license as a registered nurse under this chapter.

(B) No person shall engage in the practice of nursing as a licensed practical nurse, represent the person as being a licensed practical nurse, or use the title "licensed practical nurse," the initials "L.P.N.," or any other title implying that the person is a licensed practical nurse, for a fee, salary, or other consideration, or as a volunteer, without holding a current, valid license as a practical nurse under this chapter.

(C) No person shall use the titles or initials "graduate nurse," "G.N.," "professional nurse," "P.N.," "graduate practical nurse," "G.P.N.," "practical nurse," "P.N.," "trained nurse," "T.N.," or any other statement, title, or initials that would imply or represent to the public that the person is authorized to practice nursing in this state, except as follows:

1. A person licensed under this chapter to practice nursing as a registered nurse may use that title and the initials "R.N."
2. A person licensed under this chapter to practice nursing as a licensed practical nurse may use that title and the initials "L.P.N."
3. A person authorized under this chapter to practice nursing as a certified registered nurse anesthetist may use that title, the initials "C.R.N.A." or "N.A.," and any other title or initials approved by the board of nursing;
4. A person authorized under this chapter to practice nursing as a clinical nurse specialist may use that title, the initials "C.N.S.," and any other title or initials approved by the board;
5. A person authorized under this chapter to practice nursing as a certified nurse-midwife may use that title, the initials "C.N.M.," and any other title or initials approved by the board;
6. A person authorized under this chapter to practice nursing as a certified nurse practitioner may use that title, the initials "C.N.P.," and any other title or initials approved by the board;
7. A person authorized under this chapter to practice as a certified registered nurse anesthetist, clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner may use the title "advanced practice registered nurse" or the initials "A.P.R.N."

(D) No person shall employ a person not licensed as a registered nurse under this chapter to engage in the practice of nursing as a registered nurse. No person shall employ a person not licensed as a practical nurse under this chapter to engage in the practice of nursing as a licensed practical nurse.
(E) No person shall sell or fraudulently obtain or furnish any nursing diploma, license, certificate, renewal, or record, or aid or abet such acts. Amended by 129th General AssemblyFile No.194, HB 303, §1, eff. 3/20/2013. Effective Date: 04-10-2001; 04-07-2005

4723.32 Exemptions.
This chapter does not prohibit any of the following:

(A) The practice of nursing by a student currently enrolled in and actively pursuing completion of a prelicensure nursing education program, if all of the following are the case:

(1) The student is participating in a program located in this state and approved by the board of nursing or participating in this state in a component of a program located in another jurisdiction and approved by a board that is a member of the national council of state boards of nursing;

(2) The student’s practice is under the auspices of the program;

(3) The student acts under the supervision of a registered nurse serving for the program as a faculty member or teaching assistant.

(B) The rendering of medical assistance to a licensed physician, licensed dentist, or licensed podiatrist by a person under the direction, supervision, and control of such licensed physician, dentist, or podiatrist;

(C) The activities of persons employed as nursing aides, attendants, orderlies, or other auxiliary workers in patient homes, nurseries, nursing homes, hospitals, home health agencies, or other similar institutions;

(D) The provision of nursing services to family members or in emergency situations;

(E) The care of the sick when done in connection with the practice of religious tenets of any church and by or for its members;

(F) The practice of nursing as a certified registered nurse anesthetist, clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner by a student currently enrolled in and actively pursuing completion of a program of study leading to initial authorization by the board of nursing to practice nursing in the specialty, if all of the following are the case:

(1) The program qualifies the student to sit for the examination of a national certifying organization approved by the board under section 4723.46 of the Revised Code or the program prepares the student to receive a master’s degree in accordance with division (A)(2) of section 4723.41 of the Revised Code;

(2) The student’s practice is under the auspices of the program;

(3) The student acts under the supervision of a registered nurse serving for the program as a faculty member, teaching assistant, or preceptor.

(G) The activities of an individual who currently holds a license to practice nursing in another jurisdiction, if the individual’s license has not been revoked, the individual is not currently under suspension or on probation, the individual does not represent the individual as being licensed under this chapter, and one of the following is the case:

(1) The individual is engaging in the practice of nursing by discharging official duties while employed by or under contract with the United States government or any agency thereof;

(2) The individual is engaging in the practice of nursing as an employee of an individual, agency, or corporation located in the other jurisdiction in a position with employment responsibilities that include transporting patients into, out of, or through this state, as long as each trip in this state does not exceed seventy-two hours;

(3) The individual is consulting with an individual licensed in this state to practice any health-related profession;

(4) The individual is engaging in activities associated with teaching in this state as a guest lecturer at or for a nursing education program, continuing nursing education program, or in-service presentation;

(5) The individual is conducting evaluations of nursing care that are undertaken on behalf of an accrediting organization, including the national league for nursing accrediting committee, the joint commission on accreditation of healthcare organizations, or any other nationally recognized accrediting organization;

(6) The individual is providing nursing care to an individual who is in this state on a temporary basis, not to exceed six months in any one calendar year, if the nurse is directly employed by or under contract with the individual or a guardian or other person acting on the individual’s behalf;

(7) The individual is providing nursing care during any disaster, natural or otherwise, that has been officially declared to be a disaster by a public announcement issued by an appropriate federal, state, county, or municipal official.

(H) The administration of medication by an individual who holds a valid medication aide certificate issued under this chapter, if the medication is administered to a resident of a nursing home or residential care facility authorized by section 4723.64 of the Revised Code to use a certified medication aide and the medication is administered in accordance with section 4723.67 of the Revised Code. Amended by 129th General AssemblyFile No.194, HB 303, §1, eff. 3/20/2013. Effective Date: 09-05-2001; 06-30-2005; 03-30-2007; 2007 HB119 09-29-2007
POLICIES RELATED TO STUDENT CONDUCT WHILE PROVIDING NURSING CARE

The Ohio Board of Nursing and Wright State University-Miami Valley College of Nursing and Health require all students to adhere to the following requirements while providing nursing care. Violation of any of these requirements may result in failure of a nursing clinical; dismissal from the College of Nursing and Health and dismissal from Wright State University. All nursing students are subject to the student conduct code as listed in the Wright State University Student Handbook. A nursing student may also be referred to the University Office of Community Standards and Student Conduct for additional disciplinary actions, if deemed necessary. *(Ohio Board of Nursing Law and Rule Chapter 4723-5-12)*

(1) A student shall, in a complete, accurate, and timely manner, report and document nursing assessments or observations, the care provided by the student for the patient, and the patient's response to that care.

(2) A student shall, in an accurate and timely manner, report to the appropriate practitioner errors in or deviations from the current valid order.

(3) A student shall not falsify any patient record or any other document prepared or utilized in the course of, or in conjunction with, nursing practice. This includes, but is not limited to, care management documents or reports or time records, reports, and other documents related to billing for nursing services.

(4) A student shall implement measures to promote a safe environment for each patient.

(5) A student shall delineate, establish, and maintain professional boundaries with each patient.

(6) At all times when a student is providing direct nursing care to a patient the student shall:
   (a) Provide privacy during examination or treatment and in the care of personal or bodily needs; and
   (b) Treat each patient with courtesy, respect, and with full recognition of dignity and individuality.

(7) A student shall practice within the appropriate scope of practice as set forth in division (B) of section 4723.01 and division (B)(20) of section 4723.28 of the Revised Code for a registered nurse; and division (F) of section 4723.01 and division (B)(21).

(8) A student shall use universal blood and body fluid precautions established by Chapter 4723-20 of the Administrative Code;

(9) A student shall not:
   (a) Engage in behavior that causes or may cause physical, verbal, mental, or emotional abuse to a patient;
   (b) Engage in behavior toward a patient that may reasonably be interpreted as physical, verbal, mental, or emotional abuse.

(10) A student shall not misappropriate a patient's property or:
   (a) Engage in behavior to seek or obtain personal gain at the patient's expense;
   (b) Engage in behavior that may reasonably be interpreted as behavior to seek or obtain personal gain at the patient's expense;
   (c) Engage in behavior that constitutes inappropriate involvement in the patient's personal relationships; or
   (d) Engage in behavior that may reasonably be interpreted as inappropriate involvement in the patient's personal relationships.

For the purpose of this paragraph, the patient is always presumed incapable of giving free, full, or informed consent to the behaviors by the student set forth in this paragraph.
(11) A student shall not:

   (a) Engage in sexual conduct with a patient;
   (b) Engage in conduct in the course of practice that may reasonably be interpreted as sexual;
   (c) Engage in any verbal behavior that is seductive or sexually demeaning to a patient;
   (d) Engage in verbal behavior that may reasonably be interpreted as seductive, or sexually demeaning to a patient.

   For the purpose of this paragraph, the patient is always presumed incapable of giving free, full, or informed consent to sexual activity with the student.

(12) A student shall not, regardless of whether the contact or verbal behavior is consensual, engage with a patient other than the spouse of the student in any of the following:

   (a) Sexual contact, as defined in section 2907.01 of the Revised Code;
   (b) Verbal behavior that is sexually demeaning to the patient or may be reasonably interpreted by the patient as sexually demeaning.

(13) A student shall not self-administer or otherwise take into the body any dangerous drug, as defined in section 4729.01 of the Revised Code, in any way not in accordance with a legal, valid prescription issued for the student, or self-administer or otherwise take into the body any drug that is a schedule I controlled substance.

(14) A student shall not habitually or excessively use controlled substances, other habit-forming drugs, or alcohol or other chemical substances to an extent that impairs ability to practice.

(15) A student shall not have impairment of the ability to practice according to acceptable and prevailing standards of safe nursing care because of the use of drugs, alcohol, or other chemical substances.

(16) A student shall not have impairment of the ability to practice according to acceptable and prevailing standards of safe nursing care because of a physical or mental disability;

(17) A student shall not assault or cause harm to a patient or deprive a patient of the means to summon assistance;

(18) A student shall not misappropriate or attempt to misappropriate money or anything of value by intentional misrepresentation or material deception in the course of practice;

(19) A student shall not have been adjudicated by a probate court of being mentally ill or mentally incompetent, unless restored to competency by the court.

(20) A student shall not aid and abet a person in that person’s practice of nursing without a license, practice as a dialysis technician without a certificate issued by the board, or administration of medications as a medication aide without a certificate issued by the board.

(21) A student shall not prescribe any drug or device to perform or induce an abortion, or otherwise perform or induce an abortion;

(22) A student shall not assist suicide as defined in section 3795.01 of the Revised Code.

(23) A student shall not submit or cause to be submitted any false, misleading or deceptive statements, information, or document to the nursing program, its faculty or preceptors, or to the board.

(24) A student shall maintain the confidentiality of patient information. The student shall communicate patient information with other members of the health care team for health care purposes only, shall access patient information only for purposes of patient care or for otherwise fulfilling the student’s assigned clinical responsibilities, and shall not disseminate patient information for purposes other than patient care or for otherwise fulfilling the
student’s assigned clinical responsibilities through social media, texting, emailing or any other form of
communication.

(25) To the maximum extent feasible, identifiable patient health care information shall not be disclosed by a student
unless the patient has consented to the disclosure of identifiable patient health care information. A student shall
report individually identifiable patient information without written consent in limited circumstances only and in
accordance with an authorized law, rule, or other recognized legal authority.

(26) For purposes of paragraphs (C)(5), (C)(6), (C)(9), (C)(10), (C)(11), and (C)(12) of this rule, a student shall not use
social media, texting, emailing, or other forms of communication with, or about a patient, for non-health care
purposes or for purposes other than fulfilling the student’s assigned clinical responsibilities.

Promulgated Under: 119.03; Statutory Authority: 4723.07; Rule Amplifies: 4723.06
Prior Effective Dates: 02/01/1996, 04/01/1997, 02/01/2002, 02/01/2004, 02/01/2007, 02/01/2008, 02/01/2012,
02/01/2014
The ANA House of Delegates developed the following Code of Ethics for Nurses with Interpretive Statements which were revised in 2015.

<table>
<thead>
<tr>
<th>Provision</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Provision 1</strong></td>
<td>The nurse practices with compassion and respect for the inherent dignity, worth, and unique attributes of every person.</td>
</tr>
<tr>
<td><strong>Provision 2</strong></td>
<td>The nurse’s primary commitment is to the patient, whether an individual, family, group, community, or population.</td>
</tr>
<tr>
<td><strong>Provision 3</strong></td>
<td>The nurse promotes, advocates for, and protects the rights, health, and safety of the patient.</td>
</tr>
<tr>
<td><strong>Provision 4</strong></td>
<td>The nurse has authority, accountability, and responsibility for nursing practice; makes decisions; and takes action consistent with the obligation to promote health and to provide optimal care.</td>
</tr>
<tr>
<td><strong>Provision 5</strong></td>
<td>The nurse owes the same duties to self as to others, including the responsibility to promote health and safety, preserve wholeness of character and integrity, maintain competence, and continue personal and professional growth.</td>
</tr>
<tr>
<td><strong>Provision 6</strong></td>
<td>The nurse, through individual and collective effort, establishes, maintains, and improves the ethical environment of the work setting and conditions of employment that are conducive to safe, quality health care.</td>
</tr>
<tr>
<td><strong>Provision 7</strong></td>
<td>The nurse, in all roles and settings, advances the profession through research and scholarly inquiry, professional standards development, and the generation of both nursing and health policy.</td>
</tr>
<tr>
<td><strong>Provision 8</strong></td>
<td>The nurse collaborates with other health professionals and the public to protect human rights, promote health diplomacy, and reduce health disparities.</td>
</tr>
<tr>
<td><strong>Provision 9</strong></td>
<td>The profession of nursing, collectively through its professional organizations, must articulate nursing values, maintain the integrity of the profession, and integrate principles of social justice into nursing and health policy.</td>

**Adult–Gerontology Acute Care Nurse Practitioner Concentration**

In addition to the standard requirements for clinical, the AG-ACNP program clinical guidelines must be signed. Students may not start clinicals until all documentation is completed.

AG-ACNP students must get a “B” in NUR 7201 to proceed to NUR 7202. Failure to do so results in dismissal from the AG-ACNP program. All clinical hours must be completed prior to progressing from one clinical course to another.

In order to enroll in the final AG-ACNP practicum, a student must have met all the requirements and be eligible for graduation. Thus, if a student has over 6 credits of C’ grade, he/she may not proceed to the final practicum without specific permission from the Director of graduate concentration.

**NOTE:** CNS and NPs are eligible to apply for Ohio Board of Nursing Certificate of Authority as advance practice nurses.
Certificate Options

Wright State University currently offers post-baccalaureate certificates in school nursing. Post-master’s nursing certificates are offered in adult-gerontology health clinical nurse specialist, family nurse practitioner, pediatric nurse practitioner primary care, pediatric nurse practitioner acute care, and starting in Spring 2016 nursing education.

After completing the certificate requirements, transcripts will list the name of the specific area of study.

Post-Master’s Certificate Options

These post-master’s certificates in nursing build on the existing curriculum of the master’s in nursing. The plan of study includes all the clinically related courses currently taken by the first master’s degree students. For purposes of student eligibility for certification, all required courses must be taken at Wright State University or challenged by either examination or demonstrations of similar course content in the student’s previous master’s program. Applicants’ transcripts are evaluated by the concentration director of graduate concentration to determine the courses required to complete the post-master’s certificate. Documentation of this gap analysis is placed in the student’s formal file. Students will only need to take those course with content not included in the student’s master’s program providing the course was taken in the past 5 years or the student can demonstrate minimum competency in application of the content.

Upon completion of the program students are eligible to take the appropriate national certification exams offered.

**Post Master’s Adult Gerontology Clinical Nurse Specialist Certificate**

Prerequisites:
- Master’s Degree in Nursing with specialization as an APRN nurse and official transcript from master’s program
- Current professional licensure as APRN (advanced practice nurse) in the states where clinical experiences are planned.
- At least one year of post master’s clinical nursing experience.
- Interview by program director either in person or via telephone.
- Pharmacology course with minimum grade of “C” OR current certificate to presecribe in Ohio
- Completed the following courses with a minimum grade of "C"
  --advanced health assessment
  --advanced life span pathophysiology

Post-Master’s Family Nurse Practitioner Certificate

Prerequisites:
- Master’s Degree in Nursing (official transcript from master’s program required)
- Current RN licensure in the state where clinical experiences are planned
- At least one year of post master’s clinical nursing experience
- Interview by program director either in person or via telephone
- Pharmacology course (taken within the last 2 years) with minimum grade of “C”
- Completed the following courses with a minimum grade of "C"
  --advanced health assessment
  --advanced life span pathophysiology

Post-Master’s Nursing Education Certificate

Prerequisites:
- Master’s Degree in Nursing and official transcript from master’s program
- Current RN licensure in the state where clinical experiences are planned
- At least one year of post master’s clinical nursing experience
- Interview by program director either in person or via telephone
- Pharmacology course with grade of C or above
- In addition to pharmacology the applicant must have completed separate courses with grade of C or above in:
  --advanced health assessment
  --advanced life span pathophysiology
  --population health

Post-Master’s Pediatric Nurse Practitioner Acute and Primary Care Certificates

Prerequisites:
- Master’s Degree in Nursing and official transcript from accredited master’s program
- Current professional licensure as APRN in the states where clinical experiences are planned (e.g. a student from Indianapolis might participate in the program but do their clinical practicum experience in the state of Indiana, requiring licensure in that state).
- At least one year of post master’s clinical nursing experience over the past two years in a pediatric care setting Pediatric pharmacology course with grade of C or above OR Current certificate to prescribe in Ohio
- Interview by program director either in person or via telephone
- In addition to pharmacology the applicant must have completed separate courses with grade of C or above in:
  --advanced health assessment
  --advanced life span pathophysiology
  --genomics
  --family nursing
  o Must have no more than 6 hours of “C” grades earned in above courses

Note: Other pediatric classes not listed above may be included in the program of study. These classes will be determined on an individual basis based upon a gap analysis by the concentration program director. A personalized curriculum plan will be created to meet WSU requirements. Pediatric courses listed above that were not included in prior graduate program will be included in the program of study. According to WSU standards, a program of study that is greater than 22 credit hours will be designated as a second masters; a program less than 20 hours will be designated as a post-masters certificate.

Total Credit Hours: 18 credit hours

Prerequisite Course: Statistics and Research if not taken within the previous 5 years

Total Credit Hours: 18-34 hours depending on gap analysis

Total Clinical Hours: 560
SEMESTER GRADUATE COURSE DESCRIPTIONS

HLT 7001: Introduction to Multivariate Biostats for HC (3 credit hours)
Prerequisites: None
This course examines multivariate statistical procedures commonly used in health care literature. The focus is on understanding appropriate use of statistical procedures and interpretation of findings.

HLT 7121 Human Genetics and Genomics for Health Professionals (2 credit hours)
Prerequisites: None
This course presents focuses on the advanced study of human genetics and genomics with implications for health care professionals. Description of mechanisms of inheritance and genetic diseases are described so that health professionals can recognize possible genetic or genomic abnormalities. They can make appropriate referrals, participate in genetic counseling, and consider ethical and legal implications.

NUR 6101: Nursing Curriculum Development (3 credit hours)
Prerequisites: None
Analysis of learning theories and models of nursing curriculum design. Development and evaluation of nursing curriculum and educational programs.

NUR 6102: Teaching and Evaluation Strategies in Nursing Education (4 credit hours)
Prerequisites: None
Examination and application of the art, principles, theories, models, and strategies of teaching and evaluation in nursing education. Role of nurse educator in classroom and clinical is explored.

NUR 6103: Practicum in Nursing Education
(1-5 variable cr hrs: 5 credit hrs: 2 didactic, 3 clinical = 168 clinical hours)
Prerequisites: NUR 6101, NUR 6102 both with minimum grade of “C”
Observation, participation, and practice in teaching nursing concepts. Seminars synthesize previous learning with application to the role of the nurse educator. Clinical practicum required.

NUR 6114: Nursing Elective (1-3 variable credit hours)
Determined by the specific faculty offering the elective. The purpose of the graduate nursing elective is to offer undergraduate and graduate students opportunities to explore specific topics in greater depth.

NUR 6901: School Nursing (2-4 variable credit hours)
Prerequisites: None
Roles and responsibilities of school nurses. Care of children in schools. Art, principles and strategies of promoting health in schools. Emphasis on preparation to assume role of school nurse

NUR 6902: Children and Adolescents with Health Needs in Schools (3 credit hours)
Prerequisites: None
Roles and responsibilities of the school nurse in managing care for children and adolescents with health needs in the school setting.

NUR 6903: School Nursing Practicum
(3 or 6 credit hours; 6 credit hrs: 1 didactic = 2 seminar hours; 5 clinical = 280 clinical hours)
Prerequisites: NUR 6901, 6902 both with minimum grade of “C”
Application of the role of the school nurse in planning, implementing and evaluating a health service program in the schools.
NUR 7001: Role Development and Leadership (2 credit hours)
Prerequisites: None
This course focuses on understanding and synthesizing concepts and theories that will facilitate professional role development and leadership in advanced nursing roles.

NUR 7002: Information Technology in Health Care (2 credit hours)
Prerequisites: None
This course focuses on the theoretical basis of nursing and health care informatics. The model of data, information and knowledge is used to explore the basis of nursing informatics within health care. Strategies are examined for dissemination, access, retrieval and evaluation of information for professionals and consumers of health care.

NUR 7003: Health Policy, Politics and Issues (2 credit hours)
Prerequisites: None
Critical analysis of public policies and issues affecting nursing and health care delivery. Encompasses economic, political, social, technological, ethical and legal influences on consumers and health care providers from a global perspective.

NUR 7004: Theoretical Foundations for Nursing Practice (3 credit hours)
Prerequisites: None
Analysis of nursing and other selected concepts, models, and theories as related to nursing practice, administration, and education in development and application of nursing science.

NUR 7005: Nursing Research and Evidence for Practice (4 credit hours)
Prerequisites: NUR 7004 with minimum grade of “C”
Critical analysis of the components, methodology, and state of the art of research for nursing to plan change for best practice.

NUR 7098: Supervised Experience in Nursing Research (1-3 variable credit hours)
Prerequisites: NUR 7004, 7005 both with minimum grade of “C”
Guided exploration of research problem(s) under direct supervision of experienced researcher.

NUR 7099: Thesis/Scholarly Project Advising (1-3 variable credit hours)
Prerequisites: NUR 7004, 7005 both with minimum grade of “C”
Completion of a research study or scholarly project.

NUR 7102: Advanced Pathophysiology across the Lifespan for Advanced Nursing Practice (3 credit hours) Prerequisites: None
An in-depth scientific knowledge base is explored relevant to selected pathophysiological states across the lifespan confronted by graduate nurses. This course provides a basis for the foundation of clinical decisions related to selected diagnostic tests and the initiation of therapeutic regimens. Pathophysiology is correlated to clinical diagnoses and management.

NUR 7103: Applied Pharmacology and Therapeutics for Advanced Practice across the Lifespan (3 credit hours) Prerequisites: None
Focuses on prescriptive knowledge of pharmacologic agents used in treatment of common primary health care problems, stable chronic disease states and acute care diseases across the lifespan. Emphasis on indications, mechanisms of action, drug interactions, side effects, and client education.
**NUR 7104: Advanced Health Assessment across the Life Span**  
(3 credit hours: 2 didactic, 1 lab = 2 lab hours per week)  
Prerequisites: None  
Application of cognitive processes and psychomotor skills needed for comprehensive health assessment. Emphasis is on health history; physical, developmental, and nutritional assessment; and identification of common client problems across the life span.

**NUR 7105: Population Health** (3 credit hours)  
Prerequisites: None  
This course synthesizes methods of population assessment and planning to construct population-appropriate interventions for health care delivery systems. The focus is on safe, quality, and culturally-appropriate advanced nurse practice activities to meet emerging world needs.

**NUR 7106: Advanced Family Nursing** (2 credit hours)  
Prerequisites: None  
Family science and nursing theories are used as frameworks to assess and analyze family functioning including health promotion and risk identification of families experiencing health issues. Therapeutic interventions are discussed including multi-disciplinary approaches.

**NUR 7114: Nursing Elective**: (1-3 variable credit hours)  
Prerequisites: None  
Determined by the specific faculty offering the elective. The purpose of the graduate nursing elective is to offer graduate students the opportunities that may include exploring specific topics in greater depth, experiencing different health systems around the world and developing new knowledge, skills and dispositions.

**NUR 7115: Independent Study** (1-3 variable credit hours)  
Prerequisites: None  
Independent study of selected topic with guidance from faculty.

**NUR 7123: Pediatric Pharmacology** (3 credit hours)  
Prerequisites: None  
Focuses on the prescriptive knowledge of pharmacologic agents used in the treatment of common pediatric health care problems and stable chronic disease states of children. Emphasis will be placed on indications, mechanisms of action, drug interactions, side effects and parent and child.

**NUR 7124: Advanced Health Assessment of Children and Adolescents**  
(3 credit hours: 2 didactic, 1 clinical = 56 clinical hours)  
Prerequisites: None  
Application of cognitive processes and psychomotor skills needed for comprehensive health assessment of children and adolescents. Emphasis on health history, physical assessment of children and adolescents. Various instruments will be incorporated to assess growth and development issues.

**NUR 7201: Common Acute and Emergent Adult Health Problems I**  
(8 credit hours: 5 didactic, 3 clinical = 168 clinical hours)  
Prerequisites: NUR 7003, 7102, 7103, 7104, 7105 all with minimum grade of “C”  
Focus is on complex symptom management related to acute and emergent physiological alterations in endocrine, gastrointestinal, genital urinary, hematological, immunological and neurological function. Health promotion, maintenance and restoration are emphasized with risk assessment and prevention. Pharmacological management of complex symptomatology and advanced role development are incorporated.

**NUR 7202: Common Acute and Emergent Health Problems II**  
(8 credit hours: 5 didactic, 3 clinical = 168 clinical hours)
Prerequisites: NUR 7002, 7102, 7103, 7104, 7201 all with minimum grade of “C”
Focus is on complex symptom management related to acute and emergent physiological alterations in endocrine, gastrointestinal, genital urinary, hematological, immunological and neurological function. Health promotion, maintenance and restoration are emphasized with risk assessment and prevention. The pharmacological management of complex symptomatology and advanced practice role development are incorporated.

NUR 7203: Acute Care Nurse Practitioner Practicum
(6 credit hours: 2 didactic, 4 clinical = 224 clinical hours)
Prerequisites: NUR 7001, 7002, 7202 all with minimum grade of “C”
The focus is on synthesis of theory and implementation of the role of the acute care nurse practitioner. Experiences emphasize clinical decision-making in an inter-professional environment with focus on the acute care practitioner as a principal provider of care for patients with acute or emergent health problems.

NUR 7211: Concepts in Cardiovascular Nursing (3 credit hours)
Prerequisites: None
Examination of physiological concepts, human responses, nursing assessments, and interventions related to actual and potential health problems in adults with cardiovascular alterations.

NUR 7212: 12 Lead EKG Interpretation (1 credit hour)
Prerequisites: None
The interpretation and clinical significance of abnormalities of the twelve lead electrocardiogram.

NUR 7213: Adult Gerontology Acute Care Diagnostics & Procedures (2 credit hours)
Prerequisites: NUR 7102, NUR 7104
This course provides theoretical knowledge and emphasizes psychomotor skills.

NUR 7301: Strategic Planning for Nursing and Health Care Systems
(5 credit hours: 3 didactic, 2 clinical = 112 clinical hours)
Prerequisites: None
This course focuses on the managerial function of planning and developing leadership skills. The strategic planning process uses a systems framework to create a long term focus for nursing and health care systems.

NUR 7302: Human Resource Management in Nursing Administration (2 credit hours)
Prerequisites: None
Analysis of human resource management in health care organizations. Specific application is made to the nurse administrator role.

NUR 7304: Financial Resource Management in Nursing Administration
(5 credit hours: 5 credit hours: 3 didactic, 2 clinical = 112 clinical hours)
Prerequisites: None
Fiscal management concepts for nurse administrators. Content focuses on financial reporting function, resource allocation, and managerial issues related to finance, financial planning and control in nursing administration.

NUR 7305: Organizational Theory & Health Care Decision Making (3 credit hours)
Prerequisites: None
Evaluation of the concepts, models, and theories of health care organizations. Analysis of quantitative and qualitative decision making models in health care systems. Continuous quality improvement strategies
are analyzed in terms of patient safety and staff outcomes. Introduction to database management for administrative decision making

**NUR 7313: Nurse Administrative Practice**  
(5 credit hours: 2 didactic, 3 clinical = 168 clinical hours)  
Prerequisites: NUR 7301, 7302, 7304, 7305 all with minimum grade of “C”  
Nursing administrative practice focusing on creating safe and quality health care. Includes application, synthesis and evaluation of prior learning to create health work environments. Includes a global perspective of health care.

**NUR 7401: Adult Gerontological Health I** (6 credit hours: 2 didactic, 4 clinical = 224 clinical hours)  
(*will not be offered after F15)  
Prerequisites: NUR 7102, NUR 7103, NUR 7104 all with minimum grade of “C”  
Application and analysis of advanced practice nursing concepts as a clinical nurse specialist in care of adults and families with acute and chronic health problems including acute physiologic exacerbations, symptom management and health restoration.

**NUR 7403: Adult Gerontological Health II** (7 credit hours: 2 didactic, 5 clinical = 280 clinical hours)  
(*will not be offered after S16)  
Prerequisites: NUR 7401, NUR 7105 both with minimum grade of “C”  
Expansion and utilization of expert knowledge as a clinical nurse specialist to develop a programmatic approach to promoting health of individuals, families and groups/communities.

**NUR 7421: Adult Gerontology I** (6 credit hours: 3 didactic, 3 clinical = 168 clinical hours)  
Prerequisites: NUR 7001, 7002, 7003, 7004, 7005 all with minimum grade of “C”  
This clinical course provides students the opportunity to examine and apply CNS theory to practice and enables students to develop strategies to overcome barriers to safe, quality healthcare delivery. Students acquire knowledge and skills characteristic of CNS practice as it relates to clinical judgment, facilitation of learning, advocacy, moral agency, caring practice and response to diversity.

**NUR 7422: Adult Gerontology II** (6 credit hours: 3 didactic, 3 clinical = 168 clinical hours)  
Prerequisites: NUR 7421 with minimum grade of “C”  
Students focus on further development of the knowledge and skills related to the core competencies of the clinical nurse specialist. Acquiring leadership in the development of system-wide policy. Advocating for the individual, family, and population of interest within the context of clinical practice and policy development.

**NUR 7423: Adult Gerontology III** (6 credit hours: 3 didactic, 3 clinical = 168 clinical hours)  
Prerequisites: NUR 7105, NUR 7421, NUR 7422 all with minimum grade of “C”  
This clinical course expands on the synthesis and application of theory to clinical nurse specialist practice. Further development of clinical decision-making in an inter-professional complex environment is emphasized.

**NUR 7501: Children and Adolescents Health I** (will be deactivated after 7550 is approved in workflow)  
(5 credit hours: 2 didactic, 3 clinical = 168 clinical hours)  
Prerequisites: NUR 7122, 7123, 7124 all with minimum grade of “C”  
Application of advanced practice nursing skills integrating theory, research findings, and differential diagnoses in the provision of primary and minor acute care for children/adolescents in families. Clinical learning will incorporate use of case management and multi-disciplinary collaboration with consideration of physical, social, and psychological factors.
NUR 7511: Complex Chronic Care for Acute Care Pediatric Nurse Practitioners  
(5 credit hours: 2.5 didactic, 2.5 clinical = 140 clinical hours) 
Prerequisites: NUR 7501 or NUR 7550 with minimum grade of “C”  
Application of theoretical frameworks and research findings for health promotion, disease prevention, 
health maintenance, and health restoration for children and adolescents. Practicum focuses on advanced 
nursing care and multi-disciplinary collaboration for comprehensive health care across settings.

NUR 7512: Acute Illness Management for Acute Care Pediatric Nurse Practitioners  
(5 credit hours: 3 didactic, 2 clinical = 112 clinical hours) 
Prerequisites: NUR 7511 with minimum grade of “C”  
Emphasis on nursing management of complex acute illnesses and multi-system disorders for 
children/adolescents and their families. Clinical practicum focuses on multi-disciplinary collaboration for 
the delivery of comprehensive health care, in high acuity settings.

NUR 7513: Practicum for Acute Care Pediatric Nurse Practitioners  
(6 credit hours: 2 didactic, 4 clinical = 224 clinical hours) 
Prerequisites: NUR 7512 with minimum grade of “C”  
Focus is on models of practice in providing health care to infants, children and adolescents within the full 
scope of advanced practice (wellness, common minor health problems, and high acute and complex 
chronic illness). Factors influencing role development and delegation/supervision, quality improvements, 
accreditation standards, professional standards, and prescriptive authority will be addressed.

NUR 7550: Health Promotion and Management of Pediatric Minor Illnesses and Injuries  
(6 credit hours: 3 didactic, 3 clinical = 168 total clinical hours) 
Prerequisites: NUR 7122, NUR 7123, NUR 7124 all with minimum grade of C  
Application of advanced practice nursing skills integrating theory, research findings, and differential 
diagnoses in the provision of primary and minor acute care for children/adolescents in families. Clinical 
learning will incorporate use of case management and multi-disciplinary collaboration with consideration 
of physical, social, and psychological factors.  
COURSE NUMBER: NUR 7551

NUR 7551: Chronic Care for Primary Care Pediatric Nurse Practitioners  
(6 credit hours: 3 didactic, 3 clinical = 168 clinical hours) 
Prerequisites: NUR 7550 minimum grade of “C”  
Application of theoretical frameworks and research findings for health promotion and disease prevention, 
health maintenance, and health restoration for children and adolescents. The clinical practicum will focus 
on advanced nursing care, incorporating multi-disciplinary collaboration for the delivery of comprehensive 
health care in various care settings. Emphasis is on management of acute and chronic conditions.

NUR 7552: Practicum for Primary Care Pediatric Nurse Practitioners  
(6 credit hours: 2 didactic, 4 clinical = 224 clinical hours) 
Prerequisites: All core graduate courses plus NUR 7105, 7106, 7550, 7551 all with minimum grade of “C”  
Focus is on models of practice providing health care to infants, children and adolescents within the full 
scope of practice in wellness, common minor health problems, and acute and chronic illness. Factors 
influencing role development will be addressed.

NUR 7611: Psychiatric and Mental Health Nurse Practitioner Practicum I  
(8 credit hours: 5 didactic, 3 clinical = 168 clinical hours) 
Prerequisites: NUR 7003, 7102, 7103, 7104, 7105 all with minimum grade of “C”
Comprehensive symptom assessment, diagnostic reasoning and disease management of individuals/families with acute/chronic alterations in psychiatric/mental health status/functioning across the lifespan. Health promotion, health behaviors and disease prevention strategies are emphasized with respect to epidemiology, risks, growth and development. Therapeutic communication principles, techniques, ethics and cultural competency are emphasized. Advanced practice role development is incorporated.

**NUR 7612: Psychiatric & Mental Health Nurse Practitioner Practicum II**  
(8 credit hours: 5 didactic, 3 clinical = 168 clinical hours)  
Prerequisites: NUR 7611 with minimum grade of “C”  
The focus is on understanding and clinical reasoning in the selection and use of a variety of therapeutic modalities used in the management of individuals and families with acute and/or chronic alterations in psychiatric/mental health status and functioning across the lifespan. A variety of therapeutic treatment modalities explored. Advanced practice role development is incorporated.

**NUR 7613: Psychiatric and Mental Health Nurse Practitioner Practicum III**  
(6 credit hours: 2 didactic, 4 clinical = 224 clinical hours)  
Prerequisites: NUR 7612 with minimum grade of “C”  
The focus is on synthesis of theory and implementation of the role of the Family Psychiatric-Mental Health Nurse Practitioner (PMHNP). Experiences emphasize clinical decision making in an interprofessional environment with focus on the PMHNP as a principle provider of care for individuals with acute and chronic psychiatric/mental health disorders across the lifespan.

**NUR 7720: Primary Care to the Age of 2 for the Formerly Ill Child**  
(2 credit hours: 1 didactic, 1 clinical = 56 clinical hours)  
Prerequisites: Wright State University NUR 7001, 7102, 7004. University of Cincinnati: 29ANPC8072 Advanced Newborn/Infant Health Assessment, 29ANPC8074 Advanced Newborn/Infant Pharmacotherapeutics  
Pre or Corequisite: University of Cincinnati 29ANPC8070 Developmental Physiology of the Fetus/Newborn  
This course is for student’s enrolled in the neonatal nurse practitioner concentration in the MS in Nursing program. The focus of this course is on the growth and development of former preterm and critically ill infants and the impact of morbidity that originated in the newborn period. Differential diagnosis and treatment plans will be directed towards achieving the highest level of wellness obtainable.

**NUR 7721: Clinical Competencies for NNP Practice**  
(4 credit hours: 1 didactic, 3 clinical = 168 clinical hours)  
Prerequisites: 29ANPC8074: Advanced Newborn/Infant Pharmacotherapeutics; Wright State University NUR 7102 Pathophysiology, NUR 7004 Theory, NUR 7001 Roles  
Co-Requisites: University of Cincinnati 29ANPC80762: Advanced Newborn/Infant Health Assessment  
This is the first clinical course for the Neonatal Nurse Practitioner concentration in the MS in nursing program. Focus is on beginning clinical competencies for the nurse practitioner in the Level III neonatal intensive care unit. Students will learn a new role as a member of an interdisciplinary team, the use of new documentation systems, patient rounds, development of databases discharger planning, interpretation of x-rays, and the provision of culturally competent care.
NUR 7722 Advanced Clinical Competencies for NNP Practice
(4 credit hours: 4 clinical = 224 clinical hours)
Corequisite: U of Cincinnati 29ANPC8076: Neonatal Pathophysiology and Advanced Nursing Mgm’t I
This is the second clinical course in the neonatal nurse practitioner concentration in the MS in Nursing Program. Students will be asked to apply current management strategies to ill newborns and other infants residing in the neonatal intensive care unit. Students will utilize best evidence and an interdisciplinary approach, to provide a high level of culturally competent care for infants and their families. The student will build on objectives achieved in NUR 7721.

NUR 7723: Translation of Evidence to Practice for Neonatal Nurse Practitioners
(4 credit hours: 4 clinical = 224 clinical hours)
Corequisites: UC course: 29ANPC8078: Neonatal Pathophysiology and Adv Nursing Management II”
This is the third clinical course in the neonatal nurse practitioner concentration in the MS in Nursing Program. Students will be asked to build upon prior learning, caring for ill newborns/infants and their families. Complex cases and multiple patient scenarios will be stressed. Application of research findings, leadership on the interdisciplinary team, planning and execution of the complicated discharge, and innovations in care are all essential competencies.

NUR 7732: Advanced Neonatal Assessment
(3 credit hours: 2.5 didactic, .5 clinical = 28 clinical hours)
Restrictions: Must be enrolled in the CoNH as graduate level: NNP track
Prerequisites: NUR 7102 with minimum grade of “C”
Course allows an immersive experience in the identification of normal and abnormal findings in the neonate. Content includes a comprehensive view of fetal assessment, maternal wellbeing, and family dynamics. Opportunity will be offered to evaluate perinatal histories, perform developmental and physical exams, evaluate diagnostic and laboratory findings, and identify areas for referral. Students will learn to write comprehensive history and physicals using standard nomenclature.

NUR 7801: Primary Health Care of Women, Children and Adolescents
(6 credit hours: 3 didactic, 3 clinical = 168 clinical hours)
Prerequisites: NUR 7102, 7103, 7104 all with minimum grade of “C”
Provides the nurse practitioner with knowledge and skills needed to deliver primary health care to women, children and adolescents in multiple settings. Emphasizes the application of problem identification and management, health promotion, and client and family counseling. Clinical and supervised lab experiences focus on foundations of nurse practitioner practice, initial role identification and opportunity to apply classroom and core content.

NUR 7802: Primary Care of Adults
(5 credit hours: 2 didactic, 3 clinical = 168 clinical hours)
Prerequisites: NUR 7801 with minimum grade of “C”
Provides the nurse practitioner with knowledge and skills needed to deliver primary health care to young adults, adults, and older adults through senescence in multiple settings. Emphasizes the application of problem identification and management, health promotion, and client & family counseling. Supervised lab and clinical experiences provide the opportunity to apply classroom and core content.

NUR 7803: Family Nurse Practitioner Practicum
(6 credit hours: 1 didactic = 2 seminar hrs per week, 5 clinical = 280 clinical hours)
Prerequisites: NUR 7802 with minimum grade of “C”
Intensive clinical focus provides students the opportunity to apply relevant theories, concepts, and research findings to clinical care. Stresses development of clinical competence required in delivering primary health care.
NUR 7901: Advances in School Nursing
(4 credit hours: 1 didactic = 2 seminar hrs per week, 3 clinical = 168 clinical hours)
Prerequisites: NUR 6901, 6902, 7105 all with minimum grade of “C”
Analysis of the role of the school nurse in community health assessment and diagnosis, interdisciplinary practice, and health promotion and disease prevention primary care in a culturally diverse evolving environment.
NUR 7903 Practicum: School Nursing
1-5 variable credit (5 credit hours = 1 didactic = 2 seminar hrs per week, 4 clinical = 224 clinical hours)
Prerequisites: NUR 7001, 7002, 7003, 7004, 7005, 7102, 7105, 7106, 7103 or 7123, 7104 or 7124, 6901, 6902 all with minimum grade of “C”
Focus is on clinical application of relevant theories and research findings for health promotion, disease prevention, and health maintenance for children and adolescents in schools. Emphasis is on the development of a comprehensive school health program. Seminars synthesize previous learning with application to the role of school nurse. Clinical practicum required. Course has option to be offered as 1-5 credits for students who have completed the SN licensure program.

Please note: The CONH reserves the right to cancel courses if there is insufficient enrollment. Students can only take online courses if it is part of their approved plan of study. See “Online Class Policy” for more information.

11/30/15 CAT
R:\off_conh-restricted\staff\Academic Affairs\Graduate Course Schedule.docx
FINANCIAL AID

Applications and additional information on financial aid for graduate students can be obtained by contacting the Student Affairs Office, Michelle Nkadi (937/775-3453) or michelle.nkadi@wright.edu. Financial aid is only available for students enrolled in degree programs.

Graduate Assistantships

Graduate Assistantships consist of positions within the College of Nursing and Health: the Nursing Learning Resource Center and the Center for Nursing Research.

The positions require a commitment of 20 hours of service per week for the fourteen weeks of fall and spring semesters and the twelve weeks of summer semester. To be eligible for an assistantship, student must enroll in a minimum of six (6) credit hours per semester. Graduate assistantships pay full tuition and fees and a monthly stipend for the graduate assistantship for the academic term.

Application is made through the College of Nursing and Health (Go to http://nursing.wright.edu/ (click on GRADUATE and then click SCHOLARSHIPS). Criteria for eligibility include the following:

- Obtaining admission into the program on regular status.
- Completing an application for consideration.
- A current resume/curriculum vitae with professional work experience/education; a goal statement, and an essay. Students must also provide three professional references.
- Maintaining a 3.0 grade point average.
- Enrolling in a minimum of six (6) hours.
- Interviewing for available positions.

Graduate assistants in the Nursing Learning Resource Center work with the undergraduate students, demonstrating basic skills, assisting in the practice of the skills, administering and grading written tests, assisting in evaluation of skill competencies, maintaining equipment and supplies, and creating an environment within the lab that is conducive to positive learning experiences.

Graduate research assistants work with the faculty facilitating research projects including conducting library searches, collecting and coding research data, and providing assistance in the Center for Nursing and Health Research.
Applications may be obtained from the College of Nursing and Health Students Affairs Office or the College of Nursing and Health graduate student webpage under each specific concentration. Applications are usually processed in early summer for the next academic year positions.

**Graduate Tuition Scholarship Program**

The Graduate Tuition Scholarship Program is funded by Wright State University in conjunction with the College of Nursing and Health. Fellowship awards cover the cost of tuition and fees for graduate nursing education for recipients per year. Recipients may be full-time or part-time but must maintain a 3.0 G.P.A. Application is made through the College of Nursing and Health. Fellowships will be awarded on a competitive basis. Further information and applications may be obtained on the College of Nursing and Health website at [http://nursing.wright.edu/](http://nursing.wright.edu/) (click on GRADUATE and then click SCHOLARSHIPS).

**Choose Ohio First**

Choose Ohio First are state-funded fellowships (Ohio Board of Regents) for nurses pursuing a graduate degree in primary care. Applicants must be Ohio residents, hold a baccalaureate degree in nursing, be either a first generation college student, and come from a disadvantaged background or a culturally underrepresented group in health care professions. Recipients must maintain a good academic standing. Preference will be given to those attending full-time but part-time students will be considered. Choose Ohio First is contingent upon the College of Nursing and Health being awarded the NFLP grant. Application is made through the College of Nursing and Health. Further information and applications may be obtained on the College of Nursing and Health website at [http://nursing.wright.edu/](http://nursing.wright.edu/) (click on GRADUATE and then click SCHOLARSHIPS).

**Nurse Faculty Loan Program**

The Nurse Faculty Loan Program (NFLP) is awarded to the College of Nursing and Health from the US Department of Health and Human Services for students who are interested in becoming nursing faculty. Both full-time and part-time students may apply. 85% of the loan is cancelled if a recipient serves as a full-time nurse faculty at a school of nursing for a consecutive four year period following graduation. Recipients must complete the educational component to be prepared as a qualified nurse faculty, which adds three courses to their program of study. NFLP aid is contingent upon the College of Nursing and Health being awarded the NFLP grant. Only students seeking a Master's level degree may apply. Students seeking their Doctorate of Nursing Practice cannot apply to this program. Award is annual. Students must reapply for each academic calendar year. Application is made through the College of Nursing and Health. Further information and applications may be obtained on the College of Nursing and Health’s website at [http://nursing.wright.edu/](http://nursing.wright.edu/) (click on GRADUATE and then click SCHOLARSHIPS).
Admission to Graduate Program as Nondegree

Students may apply as nondegree to the program.

Guidelines:
1. Guidelines for admission are based on the School of Graduate Studies criteria and the CONH GPA requirements.
2. All grades earned must be at least a “B” or better to continue to enroll as nondegree.
3. Admission as a nondegree student does not guarantee admission to any concentration and is a separate process.

Procedure:
1. Students apply to College of Nursing and Health.
2. Students will be reviewed for admission by the Associate or Assistant Dean and at least one other member of the graduate faculty.
3. Advisement of students will be through the Office of Student Affairs.
4. Students may only take 9 credit hours at the graduate level in the nondegree status.
5. Classes must be part of the core and may not be within a specialty concentration.
6. Permission to register for a course must be given by an advisor or the Associate/Assistant Dean.

Advising

Students are assigned to the Director of graduate concentration of their specific concentration upon entry into the master’s program. Student’s first contact is often during the admission interview; then upon acceptance to the program to plan their program of study; and at least once a year thereafter especially, one semester prior to graduation.

Students must meet with the Director of graduate concentration of their specific concentration whenever they need to change their program of study. Per university policy, all graduate students must file a Program of Study (POS) with the School of Graduate Studies that is signed by the advisor before completing 12 credit hours of graduate course work.

Attendance

Students are expected to attend all classes, field work experiences, and practicum’s to fulfill course requirements. Documentation of clinical practicum hours will be required in clinical courses. Misrepresentation of clinical hours results in failure of the course.

Background Checks

Use and Retention: The criminal background record check report will be used only to determine a student’s eligibility to participate in required clinical experiences and, therefore, to continue in their program of study. Reports will be kept in confidential files. The college may furnish information from the report to third parties if required to fulfill its official/legal responsibilities. Information released for this purpose will include notification of the recipient’s responsibility to maintain it in a confidential manner.
**Repeat Checks:** A student will be required to submit to a repeat criminal background record check if any of the following circumstances apply: 1) They are convicted of any offense during their enrollment. 2) There is a break of two full semesters or more in their enrollment. The student has a continual obligation to report any conviction that may impact his/her ability to participate in clinical experiences to the Associate Dean within 7 days of its occurrence. Failure to do so, or to comply with any other aspect of this policy, may result in immediate dismissal from the program.

**Canceled Classes and Clinical Experience**

1. If the University is closed, all classes, laboratory, and clinical experiences for CONH students are canceled. In the event of inclement weather, students may call either the Information Booth line at (937)775-5740 or the general University number, (937)775-3333, or check the University website at www.wright.edu. All closings are posted on the website. Students may also sign up to receive email and text notifications of all closings.

2. If the University closes or cancels classes after students have arrived in a clinical experience, the faculty and students may not continue with the clinical experience. If there is concern for the student’s safety that leaving immediately would increase the likelihood for harm, students may stay in clinical until it is safe to leave (i.e., a tornado). A decision to send students home will be made by the faculty member in this event. All missed clinical time must be made up.

3. During inclement weather when the University has not officially canceled classes, individual faculty and students must make their own decision about whether they can travel to the University or clinical agency. In the event that a faculty member is unable to attend a class, the faculty member must follow procedures in the CONH Guidelines for Cancelled Classes and Faculty Absences. Clinical must be made up with clinical experiences; lab must be made up with lab experiences. Communication between faculty and students during these emergency situations is vital and faculty will develop an emergency call plan with their clinical students. Admin, 9/9/15

**Change of Address or Name**

If there is a change in address, name and/or phone number during the course of study for the master’s degree, the Registrar’s Office and the CONH Student Affair’s office (937/775-2652) should be notified so that the student can continue to receive important notices and other communication from the CONH.

**Clinical Field Work**

Students are encouraged to select a population for clinical study to follow throughout the program. Field work is an integral part of all clinical courses. Students have the opportunity to select field work sites that will meet course objectives and contribute to their professional goals. The current employer is not a preferable clinical site. All field work placements must have the approval of the concentration director of graduate concentration and graduate clinical coordinator in the specific clinical course. Generally, all attempts will be made to have field placements within a reasonable traveling distance for student involvement and instructor follow-up/supervision. However, during one clinical in some of our concentrations, students may have to drive up to 2 hours one way.
Communication between Students and Faculty

The best means of communicating with faculty and staff is through the WSU email account unless specifically told otherwise by your course instructors. The CONH does not maintain a list of non-WSU email addresses of students. It is necessary for students to keep WSU and the CONH informed when a change has been made to a home address or phone number.

The email account is automatically set up for students and activated once they have received their CATS computer account username and password. It is the student’s responsibilities to check their WSU email 2-3 times a week and to keep a current address/phone number current in their file through the Registrar’s Office and with the CONH Administrative office at 937.775.2652.

Continuous Enrollment

After acceptance at WSU into the Graduate Program, the student must maintain continuous enrollment by enrolling in a minimum of one course each semester of the academic year (with exception of the summer semester) until completion. If the student has an incomplete in any course the student is still considered enrolled in the College of Nursing and Health. If the student requires absence from the program the student must notify in writing their program director and arrange an appointment for revision of the student’s program of study and request in writing a leave of absence from the dean (See Leave of Absence).

Course or Clinical Concern Policy

If a student is unhappy or dissatisfied with some aspect of a course or clinical, and the concern is not a grade issue, you should:

1. Confer with the instructor involved.
2. Meet with the Director of graduate concentration of your concentration.
   - Acute Care NP: Dr. Kristine Scordo, kristine.scordo@wright.edu, 937.775.2628
   - Acute Pediatric NP: Tamara Clark, tamara.clark@wright.edu, 937.775.3851

   - Psych Mental Health NP: Dr. John Cutcliffe, john.cutcliffe, 37.775.3852 (Interium Director)
   - Neonatal NP: Lisa Jasin, jasinl@childrensdayton.org, 609.760.1453
   - Nurse Educator: Dr. Cindra Holland, Cindra.holland@wright.edu, 937.775.2597
   - Primary Pediatric NP: Kimberly Joo, kimberly.joo@wright.edu, 937.775.3850
   - School Nurse certification: Jeanine Bochenek, jeanine.bochenek@wright.edu, 937.3195
   - Doctoral of Nursing Practice: Dr. Tracy Brewer, tracy.brewer@wright.edu, 937.775.2595
3. If the issue is still not resolved, then you may meet with the CONH Associate Dean for Academic Affairs, Dr. Deborah Ulrich, deborah.ulrich@wright.edu, 937.775.3134

If a student has issues with a final course grade, they are to complete the steps listed on the Academic Mediation Policy and Form (next page).
Mediation Procedure for a Final Course Grade

Faculty members retain the authority to make the final determination of the grade to be awarded to each student in his or her class. After a final course grade has been awarded, the grade can only be changed by the faculty that assigned the grade or the Dean of the CONH. In the event that a student and the faculty member cannot come to an agreement regarding the final course grade, the following procedures are to be followed.

PROCEDURE:

Step 1: The student will discuss the matter with the faculty member,

Step 2: If there is no resolution, the student and faculty member will discuss the matter with the course coordinator or concentration director.

Step 3: If there is no resolution, the student will submit a request to mediate the final grade to the appropriate Assistant Dean. This form must be submitted within ten (10) working days of posting of the final course grade.

Within 10 working days after receiving the mediation form, the Assistant Dean will:
- confirm the student has already discussed the final grade with the faculty member who assigned the grade and the course coordinator or concentration director,
- confirm the student has given a copy of the formal complaint to the faculty member,
- ensure that no computational or other error has been made in reporting the grade,
- meet with the student to review the complaint, and
- either review the complaint with the faculty member and offer a perspective for the faculty member’s consideration or consult with the student about proceeding to step 4 with review of grade by a faculty panel. This should be done within 10 working days after the student has met with the Assistant Dean.

Step 4: If the course grade is unchanged, the student may appeal to the Associate Dean for Academic Affairs, within 10 working days after receiving notification from the faculty member, requesting a 3-member panel review. The Associate Dean will then select three objective faculty members who have had no involvement in the case.

The panel members will:
- ask the faculty member for any additional information that should be considered,
- seek further information from any involved party, if they have reason to believe that pertinent information might be available,
- meet to formulate their joint recommendation, and
- report their findings to the faculty member with a copy to the Associate Dean. This should be accomplished within 10 working days after the request has been filed with the Associate Dean.

After receiving the perspectives from the selected faculty members, the faculty member responsible for the grade will:
- convey his/her decision to the student in writing within 10 working days of receiving the report from the faculty committee.
- notify the Associate Dean of the decision and when it was conveyed to the student.

If the student wishes to appeal further, a request is made by the student for a review by the Dean of the CONH.

Step 5: The Associate Dean will review all the documentation and make a recommendation to the Dean regarding the grade. After reviewing all documentation, the Dean will make the decision, within 10 working days of receiving the recommendation from the Associate Dean, for the grade to stand as posted, be changed to the grade recommended by the committee, or some other resolution. Only the Dean can change a grade posted by a faculty member. The Dean will notify the student and the faculty in writing regarding the final decision and will, if necessary, initiate the grade change. See the form for initiating this procedure.
### Request for a Mediation of a Final Grade Form

Completion of this form provides documentation that the student and faculty have followed the College of Nursing & Health policy for grade mediation.

### Faculty responsible for assigning the grade

### Explanation of the grade dispute (attach additional pages as needed)

#### Step 1
Verification of student meeting with faculty
- Grade remains unchanged ☐
- Grade will be changed to __________

Student __________________________________________
Faculty __________________________________________
Date___________________
☐ Check here to continue to step 2

#### Step 2
Verification of student meeting with Course Coordinator or Concentration Director

Student __________________________________________
Director __________________________________________
Date___________________
☐ Check here to continue to step 3

#### Step 3
Verification of student meeting with Assistant Dean

Student __________________________________________
Assistant Dean _________________________________
Date________________________
☐ Return to faculty to consider ________________________
OR
☐ Check here to continue to step 4 (initiation of faculty panel)

#### Step 4
If the student wishes to appeal to the CoNH Associate Dean of Academic Affairs, the Associate Dean will convene a three member faculty to panel to review the student’s request for mediation of a final grade.

**Panel Recommendation to the Dean of the College of Nursing & Health**

Grade should stand as final _______  Grade should be changed to _______

Panel Chair: ________________________________
Member ___________________________________  Member_________________________  Date ___________

After the panel has reviewed the complaint with the faculty member, the faculty member notifies the student of the decision as to whether or not the grade will be changed. Student signs below:

Student___________________________________________
Date _____________________________
Faculty decision
Grade stands as final _______  Grade will be changed to _______
*Grade will be changed to _______
*The faculty member is responsible for initiating the process for changing the grade.

R:\off_conh-restricted\staff\Forms\Student\Mediation for an Final Grade FORM.docx
**Dismissal & Readmission**

The CONH adheres to the dismissal policies and procedures as found in the Graduate School Policy regarding “Academic Standards.”

Any student who is dismissed from the College of Nursing and Health and still wishes to pursue a degree at WSU must apply for readmission to the School of Graduate studies and the College of Nursing and Health. Readmission is not guaranteed due to changes in admission policies, a competitive applicant pool and/or availability of resources.

**Dual Concentrations**

Students admitted to two concentrations may matriculate through both concentrations with a prescribed number of clinical hours to meet national standards. In some cases, approval has already been received from accreditation bodies for cross counting clinical hours.

1. Application must be made to both concentrations and students must be admitted to both concentrations. The student formally applies on the graduate school application online to one concentration and then indicates the desire to apply to the second concentration in the comments box.
2. An individual program of student is made that is signed by both Director of graduate concentrations and the student. Program of study must include minimum of 52 credit hours.
3. Upon acceptance to dual concentrations, the Graduate School must be notified related to this status so that it is correctly reflected on the student’s transcript.
4. The Director of graduate concentrations ensure that the student will be fully eligible to sit for their respective certification exams.
5. If a student adds a second concentration while matriculating through a first concentration, an updated program of study must be signed and forwarded to the graduate office.
6. Student graduates once upon completion of all requirements for both concentrations.

**Electronic Devices and Social Media Policy**

Social media is defined as media designed to be disseminated through social interaction, created using highly accessible and scalable publishing techniques. Examples include but are not limited to LinkedIn, Twitter, Facebook, Second Life, Flickr, YouTube, Instagram, and MySpace. Social media are powerful and far reaching means of communication that can have a significant impact on your professional reputation and status as a student at Wright State University College of Nursing and Health (WSU CONH). Social media sites postings can blur the lines between personal voice and institutional voice. The purpose of this policy is to help clarify use of devices by students in a way that is conducive to learning, maintains compliance with clinical practice policies and also protects the student’s and college’s reputation. This policy is not inclusive of all situations related to social media.

**PROCEDURES:**

- All cellular phones, pagers, and electronic and/or wireless devices must be in silent mode during all classroom and laboratory experiences.
- All cellular phones, pagers, and electronic and/or wireless devices will be turned off and out of sight during examinations, quizzes, and graded events.
- Cell phone usage in clinical setting is dictated by agency/hospital contract and/or instructor preference.
Individual course faculty have the discretion of enforcing more restrictive course policies related to these devices in the classroom setting. These policies will be spelled out in individual course syllabi for students.

- **Protect confidential and proprietary information:** Do not post confidential or proprietary information about other people (including but not limited to patients, faculty and staff, other students, preceptors, and co-workers). Adhere to all applicable federal requirements (such as FERPA and HIPAA) as well as university and clinical agency policies.

- **Comments or photographs posted on social media sites that describe, or attempt to describe, any clinical experiences are prohibited, with or without identifying information.**

- Respect copyright and fair use: Always consider copyright and intellectual property rights when utilizing social media sites. Adhere to all applicable laws and regulations.

- Don’t use Wright State University logos for endorsements: Do not use the Wright State University logo or any other university images or iconography on personal social media sites, including pictures of students in their uniform where the WSU CONH logo can be seen. Pictures of WSU CONH students or faculty should only be posted with the consent of all individuals involved.

- **Terms of service:** Obey the Terms of Service of any social media platform employed.

- **“Friending”:** WSU-CONH strongly discourages the use of social media sites to “friend” faculty and clinical agency personnel. Students shouldn’t initiate or accept friend requests with these individuals unless there is an in-person friendship that pre-dates the professional student nurse relationship. In addition, a student shall not use social media, texting, emailing, or other forms of communication with, or about a patient or patient’s family member, for non-health care purposes or for purposes other than fulfilling the student’s assigned clinical responsibilities.

- **Think (and rethink) before sharing on a social media sites:** Privacy is very hard to maintain, and never guaranteed, when utilizing social media sites. Before posting anything, think about the consequences of what would happen in the event that it becomes widely known (for example printed in a newspaper or posted on a bill board) and how that would impact both the student and the university. Search engines can retrieve posts years after they are created, and communications can be forwarded or copied. If the student posting would not speak the comment in class or to a member of the media, think about if it should be posted online. Remember that postings may affect potential employer’s hiring decisions.

- **Be respectful and professional:** Responses should be considered carefully in light of how they would reflect on the student posting and/or the university and its institutional voice. Never post anything that is obscene, defamatory, profane, libelous, threatening, harassing, abusive, hateful, or embarrassing to another person or entity, including patients, families, faculty, staff, fellow students, and agency personnel. Students are expected to adhere to professional standards including the ANA Code of Ethics.

- **Identify personal views as personal:** If a student identifies his/herself as a Wright State University student online, it should be clear that the views expressed are not necessarily those of the institution. For example: “The views expressed on this site are completely my own and do not represent the views or policies of WSU CONH or any of its affiliated clinical agencies.” Considering adding this language to the profile or “about me” section.

- **Only access social media sites outside of clinical, laboratory, or class time.**

- **Use social media names and URL’s that don’t identify WSU CONH:** Avoid using your WSU email address as your primary contact on social sites. Your social media avatar should not include WSU’s name or logo.

- **Avoid providing healthcare advice or provider referrals:** WSU CONH doesn’t endorse people, products, services, or organizations. Whenever your affiliation with WSU CONH is known or implied, you should not give or request advice or referrals.

- **Add value to the WSU community with what you post:** Be accurate and factual. If you make an error, post the correction immediately within the original post.
Violations:

- All complaints regarding possible violations of this policy will be investigated. Consequences for failure to abide by any component of this policy may range from failure of a course to dismissal from the program based on the type and seriousness of the violation. Privacy violations are especially serious: Violations involving protected health information (PHI) will result in disciplinary action or expulsion. In addition, students may be subject to federal HIPAA fines or prosecutions from the affected individuals or clinical agencies.
- Violations of these policies may result in expulsion from the CONH or Wright State University
- Violations may be sanctioned by the university: Refer to the Wright State University Community Standards and Student Conduct Code of Conduct. See http://www.wright.edu/students/judicial/
- Financial penalties: Students may be required to reimburse WSU CONH if the university incurs legal costs related to an inappropriate social media posting.
- Personal liability: Libel and defamation of character may be subject to civil proceedings brought forward by the injured party. These would be separate from any university sanctions.
- Additional consequences: WSU-CONH may have mandatory reporting obligations to licensing and credentialing bodies.

Disclaimer: WSU and COHN are not responsible for postings on social media as referenced in the above policy.

UG Curr, 05/14/12; Revised Faculty Org, 08/27/14

Grading Scale

90 – 100 = A
80 – 89.99 = B
70 – 79.99 = C
60 – 69.99 = D
Below 60 = F

Approved by Grad Curr, 9/17/14

Health and Insurance Requirements

The requirements that need to be fulfilled before the student is eligible to enter a clinical setting are: (1) Completed Health Assessment Report including all required lab work tests and immunizations, (2) Evidence of Personal Health Insurance, and (3) Current Cardiopulmonary Resuscitation (CPR) training, and, for RNs and graduate students only: (4) Evidence of current unencumbered Ohio Nursing License.

1. Physical Exam Report. Because of the legal contracts which the College of Nursing & Health and Wright State University have with the clinical agencies, the below listed tests must be current for the semester in which you are enrolled in a clinical course. Updates must be submitted prior to the semester in which these tests expire. The report is not optional for nursing students.

Medical:

_____ Physical Exam - student fills out Part I, Doctor or Nurse Practitioner should complete Parts II and III (CoNH four-page form)
_____ Option 1: Two-step Mantoux for TB (2 skin tests, one week apart) along with subsequent consecutive annual one-step mantoux tests.
Option 2: Documentation of 2 consecutive annual negative results; one must be the current year. Subsequent one step TB tests are required yearly by the anniversary date of the previous test.

Option 3: Negative QuantiFERON Gold TB test or negative T-Spot TB test. Subsequent tests are required yearly by the anniversary date of the previous test.

Positive TB Skin Reactors - Only if Mantoux is positive, initial negative chest xray. Subsequent symptom reviews are required yearly by the anniversary date of the chest xray.

Tetanus/Diphtheria/Pertussis TDaP (must be within the last ten years)

Note: We do NOT accept Td Tetanus/diptheria

MMR #1 and #2 – OR - positive Rubeola and Rubella Titers

Hepatitis B series of 3 doses

Hepatitis B surface antibody qualitative titer (required in addition to three doses)

(Chicken Pox) Varicella vaccine (2 doses) - OR - Varicella Zoster Antibody IgG titer (If titer is negative, 2 doses Varicella vaccine must be administered one month apart.) History of disease is NOT accepted.

Flu shot annually by October 15. (If spring start, due by December 15.)

**Other tests (i.e., drug screening, polio, meningitis, etc.) may be required by certain clinical sites. Students MUST meet these requirements.

Insurance and Certification:

Personal Health Insurance. Students should submit a photocopy of their personal health insurance policy or card (both sides of card) which verifies the policy number. Military dependents may submit a copy of their military identification card. Students who purchase health insurance per semester through the university are responsible for submitting a copy of their receipt at the beginning of each semester. Please ask for a receipt which shows that you have paid for this insurance when you pay your fees at the Bursar’s office. Students who have health coverage through the Ohio Department of Human Services must submit a photocopy of their medical assistance identification card at the beginning of each month. If the student’s health insurance changes while in the program, they are responsible to submit the new documents immediately.

Liability Insurance. Student liability insurance is covered in course fees. Liability insurance is limited to activities directly associated with clinical duties required by the College of Nursing and Health. In addition to the blanket coverage provided by the CONH, the CONH recommends that all licensed students (i.e., RNs and LPNs) carry personal liability coverage. Any student wishing to review the policy can make a request to the Dean’s office for a copy.

The College of Nursing and Health uses a compliance tracking program to track health and insurance requirements. You will receive information about the system that is specific to your cohort before clinicals. You will be required to submit personal health insurance, specific CPR certification, Health Assessment, and TB immunization documentation.

IT IS THE STUDENT’S RESPONSIBILITY TO ENSURE THAT UP TO DATE IMMUNIZATIONS, TESTS, PHYSICAL EXAM, INSURANCE REQUIREMENTS, and CPR ARE IN EFFECT AT ALL TIMES THE STUDENT IS ENROLLED IN CLINICAL NURSING COURSES. Students must meet all health, insurance, and other requirements before re-entering clinical nursing courses.

Copy of both sides of your signed CPR card (and ACLS, PALS or NRP if required for your program) or an official document verifying successful completion of the course. CPR certification
MUST be American Heart Association BLS for Healthcare Providers, American Red Cross CPR for the Professional Rescuer & Healthcare Provider or American Heart Association Heartsaver plus PBLS.

_____ Copy of both sides of your Health Insurance card
(If you carry WSU Student Health Insurance, you must submit a copy of your paid bill, which lists Student Health Insurance, each semester.)

RN License

_____ Copy of verification of nursing license from OBN website (not required for prelicensure students).

☞ NOTE: Students will NOT be allowed to begin a clinical nursing course unless all requested information is up-to-date and on file in the College of Nursing & Health. There can be NO exceptions.

IMPORTANT NOTE: IT IS THE STUDENT’S RESPONSIBILITY TO ENSURE THAT THE REQUIRED PHYSICAL EXAM, INSURANCE REQUIREMENTS, and CPR ARE IN EFFECT AT ALL TIMES THE STUDENT IS ENROLLED IN ANY CLINICAL/PRACTICUM/FIELD EXPERIENCE UNDERGRADUATE OR GRADUATE NURSING COURSES.

Students who temporarily drop out of the program are responsible for contacting the Student Affairs Office regarding these requirements before re-entering clinical nursing courses.

*NOTE: Wright State University College of Nursing and Health photo ID must be worn at all times at the clinical agencies. ***Please keep copies of everything you submit for your own records.***

Students will not be allowed in a clinical setting unless they have met all health, insurance, and other requirements by the deadline for that semester. Students not meeting the deadline will also be administratively withdrawn from the clinical course.

Admin, 2/4/16

Hospital Library Privileges

Library privileges are available to affiliated students of schools/colleges of nursing and allied health programs at the Hospital Libraries and Special Health Sciences Libraries in the Miami Valley Association of Health Sciences Libraries.

1. Affiliate students* of schools/colleges of nursing and allied health programs may use library material (books, journals, etc.) within the confines of each hospital library.
2. Students will be able to borrow material from each hospital library and special library only through the mechanism of interlibrary loan. The American Library Association interlibrary loan forms will be required by all the lending libraries.
3. If the affiliate student is not on current clinical assignment within a particular hospital, an appointment to use any of the hospital and special libraries may be required. Appointments should be made 24 hours in advance.
4. Each hospital library may reserve the right to request that affiliate students who are not on current clinical assignment within that particular hospital present student identification cards and/or register their names and addresses at the desk in each hospital library.
5. Individual hospital libraries may provide a specific briefing or orientation of their library facilities for all affiliate students. Attendance for these special classes may be required. The specific date and time of instruction will be planned by the instructor and director of each hospital library.
6. Photocopies may be provided for affiliate students. The actual copying will be controlled by established hospital policy and completed within time periods determined by the individual library. Changes for photocopies will be based on individual library policy.

*The affiliate is a student enrolled at an area school or university who periodically will be assigned to a specific hospital for clinical practice. Admin, 2014

**Incomplete Grades in Clinical Courses**

This policy relates to the provision by faculty of incomplete grades in graduate clinical courses when the student is unable to complete required clinical hours. Students who are unable to complete all the required clinical hours in a course during the academic semester in which they are registered may be eligible to receive a grade of Incomplete (I) upon making arrangements with course faculty. Students receiving an “I” grade for incomplete clinical hours must follow university guidelines for receiving a grade of Incomplete. Revised: Graduate Curriculum

---

**Independent Study for Graduate Credit**

NUR 7115 an Independent Study is a faculty-directed, individualized study in topics selected by the students.

PROCEDURE:

1. In the semester prior to registering for the independent study, the student will identify prospective full-time faculty member(s) having some expertise in the chosen area of study.
2. The student will contact and/or meet with the identified faculty member(s) to determine appropriate fit of expertise in the chosen area of study.
3. After the student and faculty member have discussed the proposed targeted area of study, the faculty member will make a decision regarding serving as the faculty advisor for the experience.
4. If the faculty person agrees to serve as faculty advisor and facilitate the experience, the student prepares a proposed plan for the independent study that includes learning outcomes, a course outline, requirements, and a plan for evaluation.
5. The student submits the proposed independent study plan to the faculty member by the 12th week of the semester prior to registering for the independent study.
6. The faculty member refines the proposed independent study plan, as needed, in collaboration with the student.
7. Once the faculty and student are in agreement of the proposed plan, the Request for Independent Study form will be completed and signed by both the faculty and the student and submitted to the Assistant Dean for Graduate programs. See Student Handbook for Request for Independent Study form.
8. The completed Request for Independent Study form is submitted to the CONH Office of Student Affairs. If after the 1st week, the form also needs to be taken to Raider Connect by the student.
9. The student completes the independent study in the semester in which the student is registered.
10. The faculty member submits the syllabus to the CONH administration according to the CBA.

Approved by Graduate Curr Comm, 10/15/14; 1/20/16
REQUEST FOR INDEPENDENT STUDY - NURSING 7115

Prerequisite: None

Deadline for submission: 12th week of semester prior to enrollment.

Student's Name: ______________________________________________________

UID #: __________________

Plan to enroll: Semester __________ Year _____ # of Credits _____

This course provides for individual study in an area of nursing not available through regular course offerings. Permission of the supervising faculty member and the College of Nursing and Health is necessary. The student designs learning outcomes, a course outline, activity requirements, and plan for evaluation and submits this to a full-time faculty member having some expertise in the chosen area of study by the 12th week of the semester prior to enrollment. If the faculty person agrees to serve as the student’s advisor, the faculty person refines the course, as needed.

ATTACH AN OUTLINE OF YOUR STUDENT LEARNING OUTCOMES AND SUBMIT TO THE FACULTY MEMBER FOR APPROVAL.

☐ Approved  ☐ Denied

Faculty Signature: _____________________________________________________

Date: __________________________

☐ Approved  ☐ Denied

Assistant Dean Signature: _____________________________________________________

Date: __________________________

NOTE: The original of this form with a copy of finalized student learning outcomes accepted by both student and faculty must be submitted to the College of Nursing and Health Student Affairs Office (160UH) prior to enrollment in the course. The instructor and the student should also keep a copy with Assistant Dean prior to the course being completed.
Leave of Absence and Withdrawal Policy

Any student that anticipates the need for a leave of absence must request and receive approval for said leave. If the student is not continuously enrolled and takes no classes for more than one semester (excluding summer semester), the student will be considered withdrawn. Active withdrawal involves first withdrawing from the University and then notifying the College of Nursing and Health.

1. All requests for a leave of absence are to be submitted to the Associate Dean by personal letter giving time of leave and length requested and rationale. The Associate Dean will make a determination based upon the circumstances as presented in each individual case and the leave is for a defined time period.

2. University: A student leaving the University at any time during the term must officially withdraw; otherwise, the student will receive an "F" or "X" for each course in which the student is enrolled. The current withdrawal policies and procedures are stated in the Wright State University undergraduate and graduate catalog.

3. College of Nursing and Health: In addition to withdrawing from the University, the student must notify the College of Nursing and Health Student Affairs Office of the student’s intent. The student must apply for readmission.

4. Re-enrollment is not automatic. Currently enrolled students receive priority over re-applicants or transfer students. Returning students are admitted on a space available basis. A person whose nursing program is interrupted for any reason must meet the degree requirements in effect at the time of readmission to the College. Students may be required to repeat a course if the content of the original course is considered to be out of date.

UG Curr, 3/2014; Faculty Org, 10/22/14

Online Classes & Web-Enhanced Courses

Online sections will be have restricted enrollment. Each semester, a list of students needing online sections will be generated from their official Program of Study. This list will be used by the office of Student and Alumni affairs to give permission to students to register for the online sections designated on their Program of Study. Only students who had the online format in their program of study will be given permission to register. If a student would like to change this in their program of study, they must first have permission of their program concentration director/advisor and this change is also subject of availability of space in the class.

Online courses may be offered in synchronous or asynchronous formats. Synchronous format requires students and faculty to be online during a specified time frame. Students will be responsible to purchase appropriate headsets with noise reducing microphones to participate in this format.

The College of Nursing and Health follows the recommendations for hardware, interconnectivity and software from CATS and the Center for Teaching and Learning. If you anticipate taking online courses during your graduate experience you will need more computing power than the minimal requirements. Please see http://www.wright.edu/dl/techreq.html for recommendations. In particular note that high-speed internet connections are assumed for distance learning in order to provide higher quality videos and presentations online.
Petitioning

The CONH adheres to the policy and procedures for petition at the graduate school. For academic petitions see http://www.wright.edu/graduate-school/policies-and-procedures-manual-petition-for-admission.

To begin a petition process, you must complete the section on the form for the petitioner and supply all documentation directly to the Graduate School. They will check it, log you into their system of petitions, and then send it to the CONH where it will be routed to the appropriate personnel. Once acted on, it will be sent back to the Graduate School for their final approval. The Graduate School will notify you by mail of the result. This process can take up to eight weeks.

Picture Identification Cards

All University students are required to have a Wright 1 card which serves as a photo ID and a library card. All students in the CONH are required to wear an ID badge/card at all times during clinical, lab, or field work experience.

To obtain a Wright 1 card and a photo ID card/badge, students go to the Wright1 Center in 055 Student Union. A minimal fee is charged for issue and replacement. Students must have their UID # and a photo ID to obtain a Wright1 card. Admin, 7/9/15

Plagiarism Policy

All undergraduate Writing Intensive assignments and Honors papers as well as undergraduate and graduate written papers as applicable (i.e., independent study assignments, thesis and scholarly project papers) will be submitted by the student through a dropbox that screens for plagiarism. Settings that allow students to see the results of the plagiarism assessment and allow students the opportunity for multiple submissions to allow for correcting any identified deficiencies will be used. Specific communication will be included on course syllabi about plagiarism procedures. UG Curr, 11/13; Grad Curr, 1/14; FO 10/22/14

Post-Exposure Plan to Infectious Substances

What to do. . .medical emergency
if you or someone in your office experiences a medical emergency, call 911 on a campus phone (or 775-2111) immediately. University Police will assess the situation and provide required services.

What to do. . .minor injury
On campus (Dayton Campus) . . .MINOR injuries; go to Student Health Services (located in the basement, room 051, of the Student Union) or Greene County Urgent Care (located on Kemp Road off of N. Fairfield Road) or any other nearby urgent care or emergency room.

Off Campus (all other WSU locations) . . . go to the nearest urgent care or emergency room facility. For detailed information, see Wright Way Policy 6031.

All incidents involving an injury or illness that occurs to an individual on any university owned or leased property or that occurs during a university sponsored activity, regardless of location, must be reported
to the Department of Environmental Health and Safety. *Wright Way Policy 6032* (Reporting Injuries and Illnesses) provides complete instructions for filing a report. See http://www.wright.edu/wrightway/6032

**Printing in the CONH Computer Lab**

Students are responsible for the cost of printing their personal and/or class documents in the CONH computer lab. Students will need to have funds on their Wright1 Card in order to print in the nursing computer lab or any other computer lab on campus. Students swipe the card reader to perform the print function.

Admin, 8/14

**Practicum Experiences**

Unless otherwise instructed by your program director of graduate concentration, clinical and practicum experiences are formally arranged through the CONH Graduate Clinical Coordinator. Graduate students are often asked to identify master’s prepared nurses in their area of specialization to serve as a preceptor for them. A student may identify potential clinical sites preferably *other than where they are employed* and clinical preceptors. Typically, the clinical preceptor is a master’s prepared RN with expertise in the clinical specialty related to the student’s course. Other professions (such as a BS RN with a MPH, MBA or MD) may be appropriate for a specific course. Exception to these two requirements may be made only with course instructor’s approval.

CONH Graduate Clinical Coordinator selections of site and preceptor must be approved by the clinical course faculty. The preceptor is a role model and provides access to selected patient populations and appropriate agency activities. The student, faculty, and preceptor collaborate to determine learning activities appropriate for meeting the course objectives. Your clinical course faculty and director of graduate concentration will provide you with details on this process prior to clinical course starting. must arrange for a letter of agreement to each selected preceptor formalizing the arrangement. The letter shall constitute a learning contract between WSU, the student, and the preceptor. However, an affiliation agreement between the agency and the University must also be completed. The student is responsible for providing the preceptor with a copy of the course objectives and program handbook.

School Nurse students may complete practicum hours in their place of employment in a school health setting or in a school health setting arranged by the clinical placement coordinator. A portion of these practicum hours will include direct supervision by the clinical nursing faculty and their mentor. All School Nurse students will have a mentor identified who is an Ohio Department of Education Licensed School Nurse holding a valid RN license. School Nurse MS concentration students will have a mentor who is an Ohio Department of Education Licensed School Nurse, and RN, and also holds a master's degree (MPH, MED, MS, MSN, etc). School nurse students will have direct and indirect contact (face to face, electronic, phone) throughout the practicum with their mentor.

The identified mentor has experience in the role of the school nurse and serves as a professional role model who advises, teaches, and makes self-available to the school nurse students throughout the practicum. The mentor is another resource for the school nurse student. These interactions between the mentor and the school nurse students may occur via phone, face to face or email. The mentor will have some direct contact with the school nurse student and will be able to contribute to the progress of the school nurse student during the practicum. In some instances the mentor may provide access to the school health setting and population as well as appropriate agency activities which facilitate course objectives completion.
**Program Evaluation**

The College of Nursing and Health continually evaluates its graduate program to determine both areas of strengths and areas needing improvement. You are asked to evaluate your concentration during your final practicum course. You will be asked to evaluate course faculty at the close of each course. Post-graduation you will be contacted for information on place of employment and certification (if appropriate). All evaluations are used to continually improve the quality of our program.

**Program of Study**

Upon acceptance, each student meets with the director of their graduate concentration. A program of study is formulated at this time so the student knows what courses to complete each term. Both director and student must sign a Program of Study. If a student needs to make a change in the Program of Study, she/he must notify their director and meet to revise the plan prior to progressing.

If the student needs to take a leave of absence or withdrawal for one or more terms, it will be necessary for the student to complete a new program of study. Students returning from extended leaves of absence will be integrated/readmitted into CURRENT curriculum offerings which may require additional credit or coursework. A copy of student program of study must be submitted to the graduate school.

Failure to abide by these policies may result in dismissal from the College of Nursing and Health.

**Recordings**

Audio and video recording of lectures, laboratory presentations, clinical conferences, meetings, phone or other conversation are not permitted without the permission of the instructor and other students present. Permission will always be granted to students for academic content who have a documented disability which makes such recordings necessary. However, an individual student may request his/her questions or comments not be recorded and such a request will be honored.

UG Curr, 11/13; Admin, 8/14

**Return to Class and Clinical Following Illness, Accident, or Pregnancy**

All students who have been released from class/clinical/laboratory experiences for 3 or more consecutive days for physical/medical/psychological reasons may not return to class/clinical/lab until a release is on file from the respective health care provider stating the student is fit for duty.

Students must present documentation prior returning to the class/clinical/lab experience. This information is then given to the CONH Office of Students & Alumni Affairs.

Faculty Org, 8/27/14

**Second Master’s in Nursing**

When applying for a Second Master students who can document equivalency of previous course work may petition to have these course requirements waived by the concentration admissions committee. When a course requirement is waived, the student pursuing a second master’s degree will be required to take elective graduate courses in order to meet the 22 hours required minimum established in the Wright State University Graduate Catalog.
Certain courses in the university require prerequisite courses. The second master’s degree student is required to meet these prerequisites or seek instructor approval for class registration.

Procedure: Students who want to pursue a second master’s degree in the College of Nursing and Health are required to complete a program of study form with their academic advisor during their first semester of study. This plan should be signed by the student and submitted to the College of Nursing and Health’s Student Affairs Office.

Grad Curr, 9/17/14

**Smoking Policy**

At no time will a WSU CONH student smoke while in their official student nurse uniform or when representing the CONH in an official student capacity. Use of any tobacco products including vapor or electronic cigarettes is not permitted on the premises of any clinical site at any time by WSU nursing students. When on WSU campus, students are expected to abide by the University smoking policy and the CONH Policy. (See the WSU Wright Way 6020 Smoking Policy)

Faculty Org, 8/27/14

**Statistics Course**

Students are required to satisfactorily complete with a grade of “C” or higher a graduate level statistics course (approved by the concentration admissions committee) prior to taking NUR 7005: Nursing Research and Evidence for Practice. The course must have been completed within the past five years. This required course will not count toward the total credit hours of the graduate program. The Graduate Director of graduate concentration/Directors will develop programs of study to ensure meeting the statistics requirement.

Grad Curr, 2/19/14; 9/17/14

**Statistical Consulting**

- Please review the Graduate Student Policies and Procedures at [http://www.math.wright.edu/MS/SCC/pages/gradpolicies.htm](http://www.math.wright.edu/MS/SCC/pages/gradpolicies.htm)

**Testing Policy**

Policies to be followed by all students and faculty in undergraduate and graduate classes in the CONH.

*Testing Guidelines for Classroom*

Student responsibilities: (Exceptions may be made by faculty discretion.)

1. No late entry into exams without faculty permission. No extra time may be given for taking the exam unless special circumstances, such as disability, etc. are documented.
2. No children are allowed during testing.
3. All electronic communication devices should be turned off. Personal calculators are not permitted. No mechanical pens or pencils are permitted.
4. No food or drinks are permitted during exams.
5. Students are requested to not bring books, backpacks, or purses to exam if possible. If students do bring these items, they will be requested to place them in a designated area of the room and retrieve them following the exam.
6. Hats may not be worn or be in student’s possession during the exam except to meet religious, medical, or cultural needs. This requirement must be communicated to the course faculty prior to the exam.

7. Students may not leave the room when the exam is in progress. If a student must leave the classroom, the exam booklet and answer sheet must be turned in to the proctor.

8. If a student is caught cheating during an exam, the student will receive an academic integrity violation notice, and the university’s Academic Integrity Policy and Process will be followed.

9. Students must return exam booklet and answer sheet.

10. Students may be required to show their WSU ID when turning in their exam and answer sheet.

**Online Testing**

1. Faculty are encouraged to use a secure testing program for all online testing.
2. Limit the time the exam can be accessed by the student.
3. Randomize the exam items from a large test bank. Test banks optimally contain a minimum of 3 to 5 times the number of items that appear on the exam in order to ensure appropriate randomization of items between students.
4. Consider difficulty and discrimination ratings for each alternate test item in order to provide statistically comparable exams among students.
5. If a student must log out due to technical failure and restart the exam, the instructor is encouraged to provide an alternate form of the exam when possible.
6. Add to the course syllabus: It is the responsibility of the student to ensure that he/she can access the online exam. Students should check for internet service type, firewall issues, etc. in advance of the exam to locate possible trouble spots.

**Testing Guidelines for Nursing Computer Lab**

Special Testing Situations: A special testing situation is one that requires scheduling a time to take the test. Usually the lab closes for these testing situations.

Guidelines for special testing situations include the following:
1. The student must show his/her nursing ID or other picture ID at sign in.
2. The student may ONLY work as an individual.
3. Students may NOT use resources such as their textbooks, class notes, or drug books while working on the test.
4. Students may NOT take notes while taking the test.
5. No conversation is permitted during testing times.
6. Breaks are permitted. (The longer tests have “break” points during the exam.) Students are not allowed to take notebooks with them as they leave the lab or bring anything back in when they return.
7. Students do NOT have to show their scores to the lab assistant. Scores are available online for faculty review.

UG Curr 5/14/07, 9/10/07; Faculty Org 10/22/14

**Time Limit for Completion of Master’s Degree**

Students must complete all requirements for a master’s degree within seven years unless the students' specific program has a shorter time limit. The time limit is defined as being from the beginning date of the earliest course taken at Wright State University within the 45 hours applied toward the degree as
determined by the program of study. The time limit excludes a leave of absence granted in advance for adequate cause by the academic program and the Dean of the Graduate School.

Graduate School policy & approved by Grad Curr, 11/20/13

Transferring Credits

Upon recommendation of the student’s adviser and the approval of the College of Nursing and Health and the Graduate School, graduate credit completed at another graduate school may be transferred to the student’s program at Wright State.

Credit may be transferred if the following conditions are met:

1. The student was admitted and enrolled as a graduate student at the institution where the graduate credit was completed. In addition, the student left in good standing at the other institution.
2. The grades in the courses to be transferred are “B” or better.
3. The credit is within the **seven-year time limit** for completing a master’s degree
4. An official transcript reflecting the course work is on file in the Graduate School.
5. The student’s advisor reviews the transfer of credit request and recommends that the course(s) be accepted for transfer credit and reflects this information on the program of study.
6. The advisor reviews the course for equivalency and deems it equivalent to the WSU required course.
7. The student has a program of study on file in the Graduate School. The program of study must clearly reflect the student’s required and elective courses.

Grad Curr, 10/15/14

Visitors in the Classroom

Only students enrolled in a nursing class/section are permitted to attend a class or lab. Visitation at the clinical site is prohibited. Faculty recognize extenuating circumstances can occur that might warrant a need for visitor attendance in a class. Students must obtain written permission from the Associate Dean for Academic Affairs prior to start of class.

UG Curr, 11/13; Admin, 8/14

Withdrawal (voluntary)

Please refer to the Graduate School Policy regarding “Withdrawal from Courses” found at the following website: [http://www.wright.edu/graduate-school/policies-and-procedures-manual-withdrawal-from-courses](http://www.wright.edu/graduate-school/policies-and-procedures-manual-withdrawal-from-courses)

Students who have not registered during the preceding year must re-apply to the School of Graduate Studies.

Readmission to the College of Nursing and Health is not guaranteed due to changes in admission policies, a competitive applicant pool and/or availability of resources.
Wright State University-Miami Valley
College of Nursing & Health

**THESIS OR SCHOLARLY PROJECT**
(For those taking: NUR 7099)

The thesis or scholarly project is optional for graduates of the Master’s of Nursing degree in the CONH. The purpose of these guidelines is to assist you in the preparation of a manuscript consistent with high standards of communication. The appearance and content of your manuscript should represent scholarly excellence in the discipline of nursing.

The finale to graduate academic work at the Master’s level may be the presentation of a thesis or scholarly project. The thesis or scholarly project serves as evidence that the student has accomplished acceptable scholarly work in the field. The scholarly work is a public and permanent communication for the use of anyone interested in the subject. It may serve as the scholarly project should, therefore, be a source of pride not only the student, but for the Wright State University-Miami Valley (WSU-MV) College of Nursing and Health and the School of Graduate Studies. Completion of a thesis or scholarly project is optional to master’s students in the CONH. It is important to remember that if you choose to complete a thesis or scholarly project you are required to meet the standards and requirements of both the Graduate School and the WSU-MV College of Nursing and Health.

A student must be registered for at least one hour of graduate credit, as designated by the department, during the semester in which the successful defense of a thesis is accomplished.

**Choosing a Topic for Thesis or Scholarly Project**

Although to choose a thesis or scholarly project topic may seem overwhelming, there are many available resources. These resources include other student’s Master’s thesis, faculty interest lists, and the University libraries staff. Suitable topics of investigation should be discussed with peers and faculty. It is extremely helpful to begin a list of potential topics, clinical problems, issues or concerns from the first day of your graduate program. As you read and discuss issues in classes or clinical seminars, jot down topics that interest you. Prior to deciding a final topic in NUR 7005 consider the following:

- your interest in the problem;
- variables to be explored;
- feasibility of completing the project (your skills; the time required; resources needed; site, population and instrument availability);
- your professional goals;
- local, regional or national nursing research priorities;
- faculty availability and interest; and
- fit with your specialty area.

**Selecting a Thesis or Scholarly Project Director and Committee**

The process of selecting a thesis/scholarly project director begins with your entry into the graduate program. Interacting and networking with graduate faculty are important components of graduate education and provide the basis for selecting a thesis/scholarly project director and a committee member. By interacting with as many graduate faculty as possible, you can identify and discuss their major areas of interest. Usually the final selection of your director is made during or following NUR 7005. Contact the potential director to discuss your topic and the faculty’s interest and availability. Your thesis director must agree to serve in this role prior to registration for NUR 7099. The role of the thesis or project director is to:
• provide guidance from the proposal stage through completion;
• provide overall supervision of the project;
• raise questions and serve as an informed critic; and
• provide specific recommendations for improvement.

After a faculty member agrees to direct your thesis/scholarly project, the two of you discuss options for committee members who are within and outside the WSU-MV College of Nursing and Health. The committee member must be acceptable to both you and the director. It is then your responsibility to contact the potential committee member(s) and assess their interest in the topic and willingness to serve on your committee.

The Thesis Committee will consist of a thesis director and two other faculty members. The director must be a nursing faculty member who has Graduate Faculty status as identified by the School of Graduate Studies. The other committee members need to be Graduate Faculty or Associate Graduate Faculty as appointed by the School of Graduate Studies. One of the two members needs to be a WSU-MV College of Nursing and Health faculty or adjunct faculty. The third member must be from a discipline other than nursing. You need to negotiate with these individuals regarding their availability and willingness to serve on the committee. Information about eligible faculty in the WSU-MV College of Nursing and Health is available in the College of Nursing and Health Student Affairs Office.

Students who are completing a scholarly project are not required to have a committee member from outside of the College of Nursing and Health. This committee may consist of two people: the director and the member. A non-official additional member from the College of Nursing and Health or the community who is an expert in the content area is acceptable.

Students may do a joint scholarly project only with the strong support of faculty who are willing to chair and serve on the committee. The project must be approved through the petition process. The petition will present the scope of the scholarly project and name the participants for the proposed scholarly project. The scope should be as broad as if separate projects were done. Thesis and scholarly project guidelines should be followed as usual.

Prerequisites to the Thesis/Scholarly Project

Students enrolled in NUR 7099 must have completed NUR 7005. In order to register for NUR 7099, you need agreement of your thesis director. When registering, be careful to select the correct section number that reflects the number of credit hours.

Grading of the Thesis/Scholarly Project

Hours earned in NUR 7099, Thesis/Scholarly Project Advisement, are counted in hours attempted and hours earned; however, they are not computed in the grade point average. Satisfactory work toward the thesis is denoted with the grade of “M”. A “P” signifies satisfactory completion of the thesis and faculty submit a grade change of all “M’s” to “P” after the final defense. Unsatisfactory work receives a “U”. The grade of “I” for incomplete work may not be assigned for NUR 7099.

Description of a Thesis

The thesis is expected to address a problem of relevance for nursing and to be based upon a conceptual framework. It demonstrates the capacity of the student for sustained investigation and intellectual curiosity. The thesis should demonstrate that the writer has facility in the use of language,
and the ability to review appropriate background material, organize investigative information, and draw logical conclusions.

These are conducted under the guidance of an approved thesis director. The thesis director assumes the responsibility for guiding the student through the investigation. It is the responsibility of the student’s thesis director and other committee members to ensure that the thesis content, conduct, and form are acceptable to both the WSU-MV College of Nursing and Health and the School of Graduate Studies. Students are expected to assume responsibility for following guidelines, meeting deadlines, making appointments, editing the manuscript, and timely progress of the study. Ultimately students are responsible for their own thesis.

Topics for graduate theses will examine phenomena relevant to the discipline of nursing. The National Institute for Nursing Research, The American Association of Critical Care Nurses, and other organizations have published lists of identified research priorities. A variety of quantitative and qualitative methods may be used in nursing research. Primary data collection, secondary data analysis, and replication of existing studies are considered appropriate method for graduate studies. When a graduate student uses another investigator’s data as a basis for the thesis, there must be an understanding that the student’s work must be original, i.e., that new questions must be examined in the data.

Description of a Scholarly Project

The scholarly project is designed to give graduate students the opportunity for more flexibility within their nursing program by allowing scholarly inquiry in a specialized area that may be better explored through the use of a scholarly project. It is as rigorous and as valuable as the thesis by providing the student with a solid foundation in problem exploration and solution. The difference between a thesis and scholarly project is in the approach to the solution of the problem. In the scholarly project, the student does not include a traditional research design, but rather implements or describes the implementation of an approach to solving the problem. Processes that may be used instead of the research process include: the nursing process (Assessment, Planning, Implementation and Evaluation), the problem solving process, strategic planning needs assessment, decision making, program planning, evaluation, marketing, product development, or research utilization. Scholarly projects may be site specific with an application focus and are less likely to be generalizable. A three chapter proposal is required for a Scholarly Project; however, rather than including research questions or hypotheses in Chapter I, there are project objectives. Chapter III addresses the methods planned for the project rather than a research design. There is also usually an end product with a Scholarly Project, so Chapter IV and V may vary depending on the project. Because the research process is not the basis for the project, there is usually no need to access the IRB. The exception would be if you are gathering data from individual subjects (compared to collecting institutional data), then you would be required to process surveys and questionnaires through the Expedited IRB Committee for protection of human subjects. Examples of scholarly projects include the following: development of computer assisted instructional programs; implementation of a theoretical framework for nursing practice; development of a comprehensive nurse managed program to institute wellness in an industrial setting, or preparing a grant proposal.
SIGMA THETA TAU

Zeta Phi Chapter

The Zeta Phi chapter of Sigma Theta Tau, the International Nursing Honor Society, is located at Wright State University-Miami Valley College of Nursing and Health. Program meetings of an educational or scientific nature are held each year. Several programs are co-sponsored with the College of Nursing and Health.

The purposes of this society are to:
1. Recognize superior achievement;
2. Recognize the development of leadership qualities;
3. Foster high professional standards;
4. Encourage creative work;
5. Strengthen commitment to the ideals and purposes of the profession.

Current guidelines state that graduate students who have completed 18 hours of graduate credit, at least 12 of which are in nursing, and have a 3.5 grade point average will be invited by the eligibility committee to submit an application for membership. Invitations to apply for membership are sent during early Spring semester. Applications are reviewed and invitations for membership follow for the spring induction.

Those students who are already members of other Sigma Theta Tau chapters are allowed and encouraged to transfer their membership to Zeta Phi chapter.

Information about membership may be obtained from Sigma Theta Tau International Headquarters:

Sigma Theta Tau
International Headquarters
1100 W. Michigan
Indianapolis, IN 46223
(317) 264-4689

For information about the Zeta Phi Chapter contact the faculty counselors or the chapter webpage at http://nursing.wright.edu/connect/zeta-phi-chapter.
